Introduction

The cases of healing recorded in this booklet were performed in the name of Lord Jesus Christ by Sri Kalagara Subbarao. He is at present the headmaster of the High school at Pamarru in Krishna District. He belongs to Munipalle, a village in Guntur District. I did not know him before. For the past one year, I have been hearing wonderful stories regarding him. I was told that he was not a christian but a true disciple of Jesus Christ; that by his very touch even incurable diseases were healed; that sick people fall down unconscious at the very sight of him; that even doctors go to him for healing; that so many more wonderful things keep happening at his prayer meetings which are difficult to believe. I became anxious to witness these things for myself. So, one Sunday morning, at about 10 A. M., I went along with my friends and sat in the meeting which was taking place in his compound.

When I saw him he looked like any other ordinary man. He did not pose himself like any Swamiji or religious guru. There was no self-imposed dignity or pomp in him. He was surrounded by lots of men and women. He had a Tambura in his hand and his wife had a pair of wooden cymbals and both of them were singing melodiously. I was wonder struck. After some time he stopped singing and began to bless the people one by one. Some people were falling down unconscious when they looked at the picture of the cross, and some when they looked at Sri Subbarao's face, and some when they uttered the name of Lord Jesus. Some, after falling down, were simply rolling on the ground. On such people who fell down, he was sprinkling water uttering the name of Lord Jesus and immediately they were coming back to consciousness and sitting up.

When I saw these things I was surprised. I could not understand where the secret of that power was. I did not like to move from that place. From that day the heart-pain and a peculiar fear that I had been having before, have disappeared. I gained peace of mind. The people who were gathered there told me about the various benefits they had derived through Sri Subbarao's blessings. From then onwards it became my habit to attend his prayer meetings regularly.

Several times I had the privilege of sitting and discussing with him for hours together. I also listened when other people had conversation with him. I saw with my own eyes ever so many miracles being performed by him. I tried very much to understand the secret of it. Perhaps I was able to understand to a small extent. He has great regard for all great men of every religion. He does not identify himself with any particular religion. He has not taken baptism, nor does he belong to any particular church. He does not observe any special pujas or ceremonies or rituals. He says that God is not suffering for want of service from anyone. He says that all the miracles that are performed are not due to any special power in himself. He says that the power lies in the name of Lord Jesus and in the figure of the cross. When we look at it we feel that what he says is true. He says "If I place my finger in fire and if it gets burnt and a blister is formed can I say that the blister is due to my power? No, that power belongs to the fire and any body who places his finger in the fire will get the blister." All this is very difficult to understand but all what he says he demonstrates and proves in front of our very eyes. Though every day so many miracles are performed at his place still all people do not know about it. Even people living near about also do not seem to know

about it. That is why it has not received as much publicity as it deserves. Even so, so many people who have come to know about him come to him for healing from even distant places like Madras, Hyderabad, Vizag and Calcutta. Rich people, political leaders, government officials, cinema directors, actors, religious leaders, vadanta pondits, editors and every so many types of people keep on coming to him always.

I have become very closely acquainted with him yet I have not been able to fully understand his philosophy. He addresses Lord Jesus Christ as his teacher and friend. In his songs he points that religions are like prisons and the people who confine themselves to particular religions are like prisoners. He appeals to the people that they must break the barriers of religion and become free and follow in his footsteps. It is only then that all our problems and the problems of the world can be solved. It is only these external purifications, and religious dogmas that have brought destruction to the world. The remedy for this is internal purification and getting out of the clutches of any particular religion. When one cannot love and serve his fellow human beings who are visible to him, his religion is nothing but humbug and cheating. To the Yogi who has love of mankind as his objective religion is a very big obstacle. The ship of life cannot sail smoothly and reach its destination unless the anchor of religion is pulled out and removed. Unless you conquer your own self you cannot go to heaven. If you conquer yourself there is no need of religion for you. In his songs he sings that the real way to worship Jesus is to serve mankind. This is what Jesus has taught. He also tries to follow this precept in his daily life. He says 'Lord Jesus, when you came to this world you have suffered and served mankind. Is there still some-

thing remaining to complete for which you want a human body? If so why have you chosen a useless fellow like me? However if that be your wish I am most willingly offering my body to you." So saying he has completely surrendered himself to the Lord and is busy in his service.

Apart from his devotion and philosophy, his service to mankind deserves high praise. The people who come to him for his blessings are so many that he has no rest practically during the day or night. His only support is his worthy wife Srimati Nagendramma who is a gem of a lady who serves without rest or disgust. She also performs wonderful miracles. The way in which both of them are toiling continuously in the task of divine healing with great zeal and interest and without any desire for reward or remuneration cannot but cause astonishment to every one who has watched them. When we come to know that for the past 20 years they have been rendering such valuable service to mankind our hands automatically get joined together and are lifted up in salutation to them. Thousands of people have derived benefit from them and have been saved from frightful diseases and healed.

I regard it as my duty to place before you a few of such cases which I have been able to collect. Before describing the cases of healing I am also placing before you the opinions of some prominent people which I have received regarding Sri Subbarao.

Ever - Yours in - Him,

Vallurupalli Kesavarao Chowdary,

Opinions

Dr. T. Kameswara Rao M. B. B. S.,

GUDIVADA, Krishna Dt. (A. P.)

For some time past, I have been hearing about Mr. Subbarao's miraculous healings but could not believe. But the talk became incessant. The news that the moment he touches a suffering person would become unconscious and feels better in due course, created in me curiosity to investigate personally.

One day I went to Pamarru to see his Sunday prayer meeting. I talked to several persons, I came across, regarding him. Some told me that he was a miracle man and others that it was simply a hoax. Whatever others may say, to me it has proved to be a fact that at least a fairly good percentage of the people are undoubtedly benefitted.

Coming to the gathering proper, I sat in the Varandah of his house along with many others. Songs in praise of Lord Jesus Christ were being sung. Some songs

were exhorting the people to come out of the dark dungeons of Religion like Lord Jesus. Then singing was stopped and Mr. Subba Rao stood up to bless. One by one proceeded and stood up before him. Now happened the most wonderful part of the affair. When they were made to see the cross hanging on the wall, some became unconscious and fell down. The same thing happened when they looked at Mr. Subbarao too. Those who fell down were not responding to the calls of others but the moment Mr. Rao touched them they came to senses. The 'Why' of all this is not quite clear to me even to this day inspite of my careful observation several times. Whatever it may be, I saw that a very good majority of those who came there felt very much satisfied.

I said "A very good majority." Then the question of the remaining arises. Why some were not benefitted? I may be criticised (all the more because I am a doctor) When I say that my feeling is that the incurables are destined to suffer by way of their past "Karma" and that even God cannot alter the course. Then I have no alternative execept to put this question - Are we in the medical profession not failing in some cases where the desease as well as the treatment are known - let alone the present day incurable deseases? Better to admit the limitation as there is nothing like perfection in anything except God. When questioned, Mr. Subbarao's answer was "You and I are not the healers. Lack of this knowledge is the cause of all doubt. God's grace heals. There may be some who are even beyond the reach of grace."

Leaving the general and controversial things, I shall first state my experience. I have sent a young lady who was diagnosed to be suffering from intestinal Tuberculosis

at Govt. General Hospital, Guntur. Systematic anti-tuberculosis treatment was given as advised but no improvement was found. Then I took her to Mr. Rao and to my greatest astonishment she became hale and healthy, now without any of those symptoms, purely as a result of his blessing. Another brought to me as a case of delirium in Typhoid (diagnised by another doctor) was sent to him and she was alright by the next day. Another case of intractable uterine bleeding in a very young girl has been cured. I also personally witnessed many other cases which have been cured by him in the name of Lord Jesus Christ.

I heard several versions about Mr. Rao quite contradicting each other. I thought that he was a christian propagandist. Now I realised that I was wrong in having viewed him that way. Now I clearly see that he does not bother about Christian religion and as a matter of fact any other religion. I felt that he had a mind of aversion to Religions. He says that "Religions are prison cells in which the greatest children of God are imprisoned." His songs contain fine exhortations to break the bars of those prisons, set free those God's children, observe their ways and then follow their footprints. He addresses Christ as his own brother, friend and Guru. "Worshipping the visible human gods is worshipping God" he says. To that end he works hard. It is really an extraordinary type of selfless work. May the Almighty bless him with a long life for the benefit of ailing humanity by this devine healing.

Dr. R. G. Harding B. A., M. B., B. S.,

Medical Officer, A. C. C. Ltd.,

• NOWROZABAD, M. P.

The founders of every religion have formulated certain dogmas and doctrines but their followers have, from time to time, incorporated into the religion unwanted and unnecessary rituals, ceremonies and practices forgetting the essence of the original teachings, and have developed the mselves into religious fanatics. But god has been sending into the world from time to time his chosen servants to enlighten his children and show them the correct path. In my opinion Sri Subbarao is one of such God's chosen servants. His booklet on 'Baptism' is an eye opener to all those christian "padres" who have forgotten the essence of the teachings of Jesus Christ and who have exhaggerated the value of unnccessary and unimportant practices which are so much to be seen in the christian church today. This is a booklet which must be read by every one who is eager to know what true religion is.

I had the good fortune to attend his healing meetings at Hyderabad. I also have been wonderfully healed by his blessing. People of all casts and creeds came to receive his blessings. People suffering from varicus types of deseases and people possessed with evil spirits came to him in large numbers. I took keen interest to attend his meetings and watch the things that happend there. Some were healed instantaneously and some after two or three visits to him. I felt that Sri Subbarao was being guided and helped by the Lord Himself. Some christian missionaries might criticise him and pass hostile remarks but the fact remains that Sri Subbarao is a true follower of Lord Jesus and is publicly demonstrating every day how the Lord is using

him as a means to heal the sick people. I was highly impressed with the sincerity, devotion, piety and zeal for selfless service of Sri Subbarao and his wife and their colleagues. When they sang bhajan songs they were filled with devine bliss and their faces radiated the light from heaven. They have no pride and are quite unassuming.

The patience exhibited by Sri Subbarao in blessing the people and tackling their deseases and praying for them standing and walking all the time for hours together at a strech is really admirable. He makes no distinction between rich and poor, between communities or castes. Every one is treated equally. He proclaims openly and clearly that it is not he but the Lord Jesus who does the healing. He is humble and unassuming. He is a true disciple of the Lord Jesus. All the time his mind is centred on the Lord Jesus in whose presence he continuously dwells. He has imbibed the love and spirit of sacrifice of his master. All this has not been attained by him through reading of books or observance of religious practices or rituals. It is a gift of God, He is a chosen vessel of the Lord.

Sri Subbarao is not a christian nor has he taken baptism. The question will be asked as to whether it is possible to follow the Lord Jesus and obtain his grace without becoming a christian or taking baptism. The answer is 'Yes' and Sri Subbarao is the proof and the living and visible answer. If Sri Subbarao was in the wrong way then the Lord Jesus would never be present with him and allow His grace to work miracles through him.

Faith without works is dead

Faith with works is alive and is the real thing that every one must try to attain.

SRI M. R. APPA RAO M.A., (M.L.A.)

(Prohibition Minister)
(Kumararaja of Vuyyur)

U Z V I D U

Krishna Dt. (Andhra Pradesh)

I have seen for myself the devine power of Sri Kalagara Subbarao. While he was staying at my uncle's residence at Hyderabad hundreds of people came to see him and received spiritual blessings and cures of physical ailments from him and his wife. The moment he placed his hand on their heads several people used to become unconcious and fall down. By this means they obtained mental peace and traquility. He can even transmit his power to others also. When he made me place my hand on the head of one person he also fell down unconcious. His devotion to christ is very great. God is one though he is called by different names, in different places, and in different times.

God has sent his prophets and messengers into this world in various parts and at various times to enlighten the people and show them the way to salvation. The people who followed their teachings formed themselves into different religious groups. People of each religion, due to their ego and narrow mindedness began to give prime importance to their particular religion and regard it as the only correct religion. Not only that they are condemning the other faiths and are endeavouring to convert people of other faiths to their own faith. This is all due to their ignorance and ego. They have forgotten the fact that God is one. In Sri Subbarao's life we find not only religious tolerance but also devine qualities that are beyond the scope of any religion. He is not a christian. But he is a beloved disciple of Jesus christ. He has not pomp or airs about him. He is a yogi who does not brag or pose. People of his type are very rare to find in this modern world.

Sri A. F. Thyagaraju M. A., (LONDON)

Principal, A. N. R. College,

GUDIVADA,

Krishna Dt. (Andhra Pradesh)

I had heard of Sri Kalagara Subba Rao and his work, and was anxious to see him, but could not get the opportunity until January 1959. Since then I have come to know him very well and have been much impressed by his work and influence. He has had a remarkable experience: he has been captured by Christ and changed by Him. Those who have known the preconversion Subba Rao can testify to the marvellous transformation that has come over him. Once again Christ has proved, that His love can work a revolution in a man's character. Sri Subba Rao has never ceased to wonder why Christ chose him and called him to His service. It is the wonder which overwhelms every soul that has felt the touch of Christ. It is an echo of Peter's cry: "Depart from me, for I am a sinful man, O Lord".

Not only has Christ chosen him; He has bestowed on him the power which He Himself exercised in the days of His flesh, the power to cast out devils and heal all manner of diseases. Sri Subba Rao believes that every follower of Christ should prove his discipleship by doing the mighty works that Christ wrought. His faith is so great and his dependence on his Master so complete that he has, through the power of Christ, succeeded where doctors and experts have failed.

Sri Subba Rao has not escaped criticism. Orthodox Christians would find it difficult to agree with him in some respects. For one thing Sri Subba Rao does not believe in "religion"; in something organised and maintained systematically. He would reject the text "On this Rock I will build My Church" as a fabrication, and assert that the

Church is a human institution that has "imprisoned" Christ. Secondly Sri Subba Rao does not believe in baptism. He looks upon it as a meaningless ceremony, and does not consider it as a public avowal of loyalty to Christ and as a willingness to shoulder the cross of shame and humiliation that must inevitably be the lot of him who publicly declares himself a servant of Christ. I think that Sri Subba Rao's attitude to baptism springs from the fact that he received from Christ the power to heal even as an unbaptised person. His dislike for the Church may be traced to some bitter experiences he had with those who profess and call themselves Christians.

It is not for any of us to judge Sri Subba Rao. On these and other matters he must be guided by his relationship to his Master the sad guru who loved him and gave Himself for him. I am confident that he will go wherever Christ leads him.

He has much work to do. The hundreds who come to him for their bodily needs must be made to understand that Christ is all-sufficient not only for the body but for every thing, that He is the Way, the Truth and the Life. The many non-Christians who avoid the regular Churches out of fear or prejudice, may come to Sri Subba Rao and through him may come to know his Lord and Master.

Some of us who have longed and prayed for our countrymen, that they should see Jesus and understand His love, feel that the work of Sri Subba Rao is an answer to our prayers. Methods may differ but the goal of all lovers of Christ is the same - to know and love Him more fully and make known His love to others.

May Sri Subba Rao and his life's partner Srimati Nagendramma be long spared to bring many to the feet of Christ.

SRI P. LAKSHMIPATHI SASTRY,

EDITOR : 'ANDHRA KESARI'

MASULIPATAM A.P.

I never believed in Gods, Devils and the like till the day when I saw some wonderful happenings at Pamarru. One day our correspondent sent a news that a person bitten by a cobra was miraculously brought back to life by one Mr. Subba Rao by his touch in the name of Lord Jesus Christ. As such other news were received by me often, I wanted to see the things for myself

One Sunday I went and sat in his prayer gathering of several men and women. That was the first time for me to see him. He was quite simple. Tambura in hand, he was singing songs in praise of Lord Jesus, addressing him as gurudev, brother and friend. After a time singing was stopped and blessings were made. Some of them were falling down unconsciously the moment he touched and blessed. The same happened when they looked at the cross and when they uttered the name of Jesus. When he sprinkled water they were coming back to senses and sitting up. It was all a wonder for me. Most of them told me how they were healed by his blessings.

Till today I am not able to forget all that miraculous affair which I could not understand even though I went there several times afterwards. I can't but conclude that there is some mysterious power in the name "Lord Jesus", in the cross and in Sri Subbarao. It was purely a selfless service.

SRI G. VISWANATHAM

REGISTRAR OF CO-OPERATIVE SOCIETIES A.P. (Retd.)

14, Ayyavunaidu St., Shenoy Nagar,

MADRAS - 30

My first contact with Mr. & Mrs. K. Subbarao of Pamarru was at a prayer meeting sometime during November 58 in Hyderabad. Subsequently I had the good fortune of meeting more intimately the blessed couple at Pamarru. A vast majority of the crowds (numbering several hundreds) were suffering from ailments, Physical or mental or both. It was my good fortune to witness several 'miraculous healings by the 'Mere Divine touch' in the Holy Name of Jesus Christ'. I have seen several people among the afflicted going away happily full of thankfulness to the Merciful Lord. In my humble opinion the Lord has blessed these two simple souls to carry on the "Healing Mission of the Lord by Prayer."

Sri M. Koteswara Rao M. A., B. Sc., (Hons)

LECTURER, GOVT. S.R.R. & G.V.R. COLLEGE,

VIJAYAWADA,

Krishna Dt., Andhra Pradesh:

Pamarru is a small village in Krishna District, about 26 miles from Vijayawada in Andhra. In that something is happening, which is a challenge to the whole of Science and Religious beliefs. Very orthodox but extremely peculiar, unconventional but awe inspiring, it has created a deep stir in the minds of people, far and wide.

There lives a gentleman, Headmaster of a High School Sri K. Subbarao B. A., B. T.,. Very simple and unassuming in his bearing, intensely human, he is a fast and inseparable devotee of Jesus Christ. Years ago, he was a Commoner, as Common as anybody, worldly-wise, and was leading a routine life. Born with an intense, emotional ideology, no cause which appealed to him as right, escaped his ardent support. During the war he was on the side of the causes of democracies and sang songs in support of war and his work was so thorough and far reaching that the Viceroy Lord Wavell conferred on him, the title of Rao Sahib. The late Dr. C.R. Reddy often yearned for his company. He received enough medals and testimonials from the Government to boot. But at that time, there was nothing about him, that can be called pious or Godly or religious.

Suddenly a strange phenomenon happened. By about 1942, Lord Jesus revealed himself to him in a vision and spoke to him with affection and concern. The bleeding figure of Jesus was baffling and Sri Subbarao was not easily

conquered. He argued and persisted in his non-belief and appealed. Finally he was convinced that the Lord has chosen him as a medium and wanted to fulfil Himself. During that Communion, Power of Jesus, has entered him.

From that time onward, he has moved from place to place on transfer. Wherever he lived, became a centre of intense spiritual activity. He identifies himself with Jesus Christ, so much, that, hardly, we can perceive a self, in him. He keeps a cross always in his house and has written a number of beautiful songs in the praise of Jesus. All of them expound his Philosophy and are vrry elevating. In every place, there is a large band of devotees, young and old, ladies and gentlemen rich or poor, coming from far and near, who always gather in his house. He conducts mass prayers daily between 6-30 p. m., to 9 p. m., on week days and between 11 a. m., to 2 p. m., on each Sunday. It is very nice to see him, lead the Prayers with each song. He is so emotional and sincere that we can see him, radiating spiritual splendour at that time. He seems to feel the Holy presence of Jesus, right there and enjoy the bliss. The Lord has given him a marvellous Healing Power, which he uses lavishly on all people, rich and poor, alike. It is this 'Healing by touch' that is most baffling. I will narrate below, what I have personally seen, during my contact with him for over three months.

On a Sunday, by 10'o Clock, the Prayers begin. He sits with a Tambura; in his hand and begins. By that time, most of the patients and the afflicted, would have gathered there, to join the prayers. Those of the congregation, who can, join the Chorus and sings. In the background is kept a stately Cross, imposingly decorated. The silent, enjoy a communion with the Cross and Jesus, during the Prayers.

Incense will be sending constantly, waves of smoke across the figure. As the prayer progresses, song after song, the emotion and ecstasy of the people increase. It is a great sight to observe the beams of Gratitude and thanks on the faces of the devotees and the patients, who already got relief at his hands. The songs have different purpose. One of them begs of the Lord to enlighten the dark path of life, beset with all cares and entanglements; the other decries the religious fanaticism that blinds our vision to the true nature of God; another extolling the Great Sacrifice of Jesus which Sri Subbarao prefers to call as 'Maha Yagna' and so on. The rhythm and the music and devotion, all galvanize our hearts to the Lordly Presence. Srimathi Subbarao, is the Doyen of the musicians and her voice stands out most prominently.

After prayers, he stands up and beckons people to come forward. The variety of ailments cured, is very interesting. A person with a bad stomach and digestion for 10 years a paralytic who cannot stand a person with a surgical wound which refuses to heal for months a lady hardly 20 years, stricken with a paralytic stroke down the hips since the time of puberty chronic rheumatism etc., what not. The nature of the disease or the details do not worry him. The most interesting type are those that are afflicted by evil spirits. Here comes a man who is having a down pour of miseries, since he occupied a particular house – a loyal wife developing suspicion and animosity about an innocent and noble husband a man so mad as to place his child on the rails and wait for the train to pass a learned man who feels that a metallic wire is moving across his brains. Persons afflicted with dangerous complaints like T. B., Leprosy and so on. All of them gather and wait for his miracle touch.

The procedure is this. The patient is made to stand before the Cross and gaze at the Cross. I have seen all sorts of people. Those that cannot look into the cross and shut their eyes those that burst into weeping at the sight some swoon and fall down and so on. Those that become unconcious are laid at rest by the friends (mostly old patients) who are there. After sometime, they may automatically regain senses or he sprinkles a little water calling 'Jesus'. Then they get up.

After this, he places his palm on the forehead and sometimes on the afflicted part also. From my personal experience, I can say, that the person has a feeling that some energy or power is flowing into us and the patient develops a feeling of dizziness. Some may become unconscious. It depends on the intensity of the complaint. Such people are allowed to remain unconcious for some time and made to recover. Most interesting is the case of a man who had a fall and sprained his foot badly. He would not allow anybody to touch, due to pain. He was made to stand and Mr. Subbarao just touched him. The man became unconscious and a sturdy friend was asked to massage the foot. Blissfully the patient did not know of any pain. The patient was in an anaesthetic condition. Sri Subbarao asked me to explain the difference between the Chemical and Spiritual anaesthesia.

While touching the patient on the forehead Mr. Subbarao prays as follows. "Jesus, Lord, Kindly save this child of yours, from all earthly and spiritual ills. He has no acces to you and is at your feet. Please remove all the evil spirits and send them down to Hell". He repeats the name of the Lord with great fervour and ecstasy and we feel Lord Jesus himself is standing there, with his hand

behind the hand of Mr. Subbarao. He wants the patient repeat the name of Jesus over and over. Finally he asks the patient to keep faith in Christ, repeat his name often, burn in Cense in His name every day and study the Bible. He has to attend the Prayers a certain number of times.

The patient possessed by evil spirits, generally weeps, bursts and becomes eccentric at the sight of the cross and his touch. Then he asks the spirit "Who are you here troubling this person" etc. The answer comes through the mouth of the patient and often the spirit says 'yes' or 'no' to his order to leave. Then he starts prayers again and the devotees join.

I have seen scores and hundreds of patients relieved. Many of them continue to visit him even after cure. If intense treatment is wanted, they come daily but the bulk of them come on each Sunday. He touches the incense given by the patients and returns. I have seen, water touched by him, remaining sterile over a week. No growth comes out.

Thus day after day and week after week, the number of patients, cured, is going into thousands. If he happens to visit any place, there, the prayers are held and again patients gather to be cured. Different diseases or snake-bite etc., are according to him, different forms of affliction by evil spirits. Generally all the cases that come to him, are, after the medical profession has given them up, as hopeless. After the Miracle touch of Mr; Subbarao, they return back hale and healthy, if only to prove that spiritual power of healing is superior to physical Sciences. Persons bitten fatally by Cobras and whose pulse has already failed, are brought to him. He prays to Lord Jesus and asks them to

sit up. They at once get up and walk away. I saw two ardent devotees of his, saved from the jaws of death. They also conduct prayers now in their places and have also developed the healing touch, to some extent. A child with a congenital heart, pronounced as bad and hopeless by the Medical profession and taken to Vellore was brought to him. She is healthy and is developing gradually. It is actually a miracle.

In all his prayers and Healing process, Mr, Subbarao is ably supported by his unostentatious wife. She has been his partner in spiritual experiences, from the very beginning. They both look upon the patients, as their children and are never tired of helping them. They keep the same benevolent smile from the first to the last patient. Both of them seem to live Christ, by Christ and for Christ. What a strange combination of two devoted and dedicated souls ! They do not accept even a flower or fruit from others and are eager to be courteous to the Visitors, who range from the Provincial Officers to the poorest toiler. They love all equally alike.

Sri Subbarao believes that ailments are caused due to past karma. He believes that the good and bad of parents and ancestors visit grand children. He treats the parents for the ill of Children; the wife for the complaints of the husband and vice versa.

Sri Subbarao is a great representative of Jesus, but he is not a Christian in the ordinary sense of the word. He hates religious pomposity. Among his clients, I have seen many Doctors, who were themselves healed of their ailments. Here is a beautiful testimony from an eminent Doctor R. C. Harding B. A., M.B., B.S , of Balarum, Andhra Pradesh. He says:

“Before he heard the voice of god, Sri Subbarao was like any other man of the world full of vices and sinful living. The power of God had changed him. The transformation came with the speed of lightning. His outlook on life had changed completely. The former passions and vices had completely lost their hold on him. The spirit of god had possessed him and he was a new man altogether. He was filled with power which manifested itself in healing the sick whenever they came in contact with him, or when he prayed for them. God has been using him ever since in healing the sick.

I had the privilege of attending the healing meetings of Sri Subbarao in Hyderabad. I myself am one of those who have been healed by him. People of every community and caste came in hundreds to receive his blessings and get healed. Those possessed with evil spirits were healed instantaneously. The evil spirit would speak and confess its name and since when it is staying in the individual. When commanded by Sri Subbarao to leave the individual and go away, it would at once obey. I have personally contacted several sick people, who came to him and collected statistics. In some cases the healing process was instantaneous and in others recovery was by stages and complete healing took place after two or three sittings.

I was much impressed with the simplicity, modesty and sincerity of Sri Subbarao and his band of co-workers. When they sang Bhajans, they were so inspired and filled with ecstasy, that one who saw them felt that he was standing on holy ground. Their faces were radiating with the glow of another world. Sri Subbarao has no ego, no pride, no vanity. For hours together he would devote himself to

the task of praying for and healing hundreds of people. He does not differentiate between the rich and the poor. To him, every one is the same be he of any creed caste or community. He is always humble and all the time draws the attention of the sick man to the healing power of Jesus Christ. "It is not 'I' but 'He' that heals;" that is his declaration. He is detached from the ordinary world. Most of the time he is in a higher plane in the direct prosence of the Lord Jesus himself. The peace of the Lord fills his soul and overflows and touches them who come in contact with him. What he is and what he was spiritually is not something that has been acquired by him by reading books, or practices. It has been poured into his directly by Lord Jesus himself, whom he acknowledges as his only guru."

Since Mr. Subbarao is a real Sadhaka and has nothing to do with any religion, to me, he appears to have imbibed the best in all religions. He says atheism is better than religions fantacism, which imprisoned several of God's children and harassed them. He says that there is something miraculous in the name of Jesus and in the shape of the cross. He has demonstrated that God exists everywhere by asking the patients to stare at the Cross or stare at him or look into empty space. The effect was all the same. He says that Jesus can be felt anywhere.

Mrs. Subbarao says in the preface to the small book 'Years ago he was so intensely worldly that I never dreamt of his change. I know it is not at all his effort. Lord Jesus Christ himself did it. It was all like magic. It was all sudden. I myself could not believe. I cannot account for all that. It was nothing else but His grace. The change was abnormal. The spiritual power was so great that I should

conclude that Lord Jesus himself ordained him. Why? No one Knows. No one can question. It is not our province. Such have been the cases of the 'Chosen' from the beginning. To such, religions ceremonials, external purifications, etc., have no meaning. They are the very trumpets of God. We had many of them. Why such sinners were favoured and glorified, He alone knows. They won't live for the sake of religions. They live for God and die for Him. They have nothing to do with heavens or hells or purifications. Lord Jesus loved them, chose them and ordained them. That is all. It is His Will."

I am a Hindu and that too a Brahmin. I had the good fortune of having a series of intimate talks with him about his Philosophy. I propose to expound it in another article. Meanwhile, I wish to draw the attention of the Large Public and readers to the miracles that are happening around us. Sri Subbarao does not want any publicity, but I feel it my duty to radiate, this peculiar spiritual Phenomena.

SRI T. S. RAO

Research fellow C. E. Department,
Rice University
HEUSTON-TEXAS,
AMERICA.

It is the duty of every man to preserve his body in a fit state to enable him pursue the path of righteousness. Therefore it is very essential that the body must be protected from diseases. It is true that diseases can be eradicated to a certain extent by the various Medical Sciences which the human mind has discovered. Besides curing diseases of the body, to take him to a higher state of spirituality is a more laudable objective. To attain this state we must have purity of mind and possess virtuous qualities. Sri Subbarao possesses these things and that is the secret of the power of his sincere prayers and worship.

His prayers are not only capable of driving away diseases but also to lift up people to great heights of spirituality. It is true that thousands of people came to his prayer meetings and get cured of their diseases. This is a challenge to the westerners who think lightly of Indian culture and also to those indians who are enamoured of western culture and become slaves of western culture and who boast and think no end of themselves.

While I was in India I have attended some of his prayer meetings and had the privilege of personally witnessing a number of people suffering from various diseases getting completely healed. To be gifted with such wonderful powers is a matter of god's grace. May god grant that the wonderful powers of Sri Subbarao and his wife may be used for the benefit of not only the people of Andhra but all the people of the world.

Healings

(1) Bitten by a Mad Dog

(HYDROPHOBIA)

Sri K. ESWARA RAO

Some years ago my son was bitten by a mad dog. The District Medical Officer at Masulipatam gave him 14 injections. In addition to that, for 5 days, we gave him some herbal treatment at Kavatharam. We performed his marriage and came back and were living in our village.

15 years later the boy suddenly began getting hysterical fits and was shouting in a peculiar manner which resembled the barking of a dog. We were advised to take him to Vizag. In the mean time many renowned doctors had already told us that not even one in a thousand cases of this disease has ever been cured. So we gave up all hopes. The boy's condition was very serious. It was so difficult for us to hold him even. We had been hearing about Sri Subbarao during those days. I had never seen him nor had faith in him. However, having no other go, I went to Sri Subbarao and explained to him all about my son's suffering. He gave me incense and asked me to burn it and show it before the boy when the fit came and utter the name of Lord Jesus.

I took the boy along with me that night to the prayer meeting in Sri Subbarao's house. There were several sick people there who were suffering from chronic diseases. We also sat along with them. The boy was in a conscious state. He made the boy stand before the figure of the cross and placed his hand on the boy's head uttering the name of Lord Jesus. The boy at once lost control of himself and fell down and was shouting like a dog. But he was not having convulsions or any violent movements. Sri Subbarao, in a commanding tone, said 'Leave him and go'. At once the boy regained consciousness and sat up and was looking at every one in a puzzled manner. I could not understand how this miracle had happened but I was highly astonished. Sri Subbarao gave me incense and asked me to take it home and use it for the boy when ever necessity arose and utter the name of Lord Jesus while burning the incense.

Next day, while at home, the boy again got the fit. At once the women burned the incense and were uttering the name of Lord Jesus. Within 2 minutes the boy got up and sat and was looking at every one in bewildered manner. He asked us why we were all standing around him. We explained to him what had happened. He said that he did not know anything regarding what happened to him except that he saw a big light. From that moment the boy became completely alright and healthy and went on his duty. My boy whom doctors could not cure was miraculously healed by the grace of Lord Jesus. Not only this; I saw with my own eyes so many other sick people being healed in a miraculous manner by Sri Subbarao's blessings that I am simply astonished and cannot express that in words. These are not mere words but facts which any one can witness on any day in his prayer meetings.

For the past some years I have been suffering from hydrococle. About 5 years ago I underwent an operation. The operation was not successful and once in 15 days I used to get a boil at the site of the operation which gave me much suffering. Later the boil would ripen and burst and then the suffering would become less. I took endless treatment but there was no relief. This time when the boil appeared, I could not sleep due to pain and could not walk even a few steps. Somehow I went in a cart to Sri Subbarao. I was carried with great difficulty from the cart and laid in his varandah. It was prayer time. After singing songs of Lord Jesus Sri Subbarao touched my head and said "Lord Jesus." At once I lost my consciousness. After some time I regained my consciousness and found that all my pain and suffering had vanished. I was able to get up and walk with ease. In all my life I never felt so much astonished as I felt then. I sat down quietly and the prayers were ended.

From the beginning I am accustomed to speak in a blunt way. As I was talking with Sri Subbarao I told him that there was something in his hand. At once he asked me to go and stand before the photo of the Cross and look at it. I did accordingly and as I was looking at the cross I felt giddy and fell down. Again he made me get up and asked me to turn behind and look at the sky and to utter the name of Lord Jesus. I did accordingly and again I fell down unconscious. Then he said "Tell me in which thing you find the power. How can I say what your experience is. Think well and see where lies the power. You may go now."

I was astonished and went home walking. I am not able to answer. Can any one give me the answer? If so I will come to his presence. most obediently.

(2) HEART PALPITATION

Sri P. Hanumantha Rao

My mother Jayalakshmi had been suffering for a period of three years from muscular and neurotic pains and heart palpitation. I took her to Vizag, Madras and other big cities and had her treated by the best of physicians and spent much money, but with no benefit. Having heard about Sri Subbarao I took her to Pamarru to show her to him. He touched her and blessed her meditating on Lord Jesus Christ. From that moment, it is a wonder of wonders she began improving and in a few days was completely healed.

(3) HIGH BLOOD PRESSURE

Md. Hamidulla

For two years I underwent much suffering as my health gradually deteriorated. I developed severe constipation. I had severe headache and pains in the legs which was unbearable. I lost my mental equilibrium and was like a mad man. I became very much depressed. I took treatment from Alopatic and Unani physicians in Hyderabad and Masulipatam. They said that I was suffering from High Blood pressure but I could not find any relief with their treatment. One day I went and sat with Sri Subbarao and his group while they were singing Bhajan songs. I felt some benefit. Next day I again attended the Bhajan performance. All my sufferings vanished completely. Now I am perfectly alright. I am myself astonished at the miraculous healing I had.

(4) EYE DESEASE (KERATITIS)

Mrs. G. Subbamma

For the past 3 months I developed trouble in my right eye. There was swelling of the eye. Gradually the black portion of the eye ball became white. I lost my vision in the eye. I took treatment from Alopatic and Ayurvedic doctors, but with no relief. My suffering increased. I heard that many sick people were going to Sri Subbarao for healing. I also went to him. He touched my eye and blessed me. I felt a soothing sensation when he touched my eye. I felt that the pain had decreased. He asked me to come regularly for 4 sundays. I went accordingly. Gradually all my sufferings vanished and my eye became perfectly alright.

(5) URTICARIA

Sri A. Rama Rao

One day my wife suddenly felt a constriction in the throat and developed severe burning sensation through out her body. She fell down and rolled on the ground due to the suffering. She tried to get relief by drenching her clothes with water, she was perplexed. I thought she would die. I put her in a bullock cart and took her to Sri Subbarao. He touched her head and meditated on the Lord Jesus christ. Immediately the burning sensation disappeared. The muscles of the throat relaxed. We were all wonder struck. After this we took our son also to Sri Subbarao for his blessings. Our son who was suffering with Asthma for two years was also healed.

(6) MENORRHAGEA

Kumari Ch. Nirmala

I developed excessive uterine haemorrhage which continued for 4 months. I could not be relieved by any type of medical treatment. Tonics, injections and tablets were given to me. I was advised by my doctor to take complete rest in bed which I did. I gradually became weaker. Other complications like, pains in the legs, pain in the abdomen etc. also developed. Then my doctor himself brought Sri Subbarao to my house. Sri Subba rao touched me and prayed for me. Immediately my complaint began to decrease and by the next day my bleeding completely stopped. Other secondary symptoms like pains in the legs etc. also vanished. Now I am perfectly alright. realised that it was by the grace of Lord Jesus christ that I got healed.

(7) BRONCHITIS AND HEPATITIS

Sri K. Sreeramulu

For 5 years I suffered from Bronchitis and hepatitis. I could not have proper sleep. I was daily witnessing several sick people who were brought in cars were getting healed by Sri Subbarao. In spite of it I was not inclined to go to him. I believed that there was no god. I could never believe that I could be healed by him when so many costly medicines failed to cure me. But one day when my suffering became unbearable I went to him without any hesitation. He asked me to utter the name of Lord Jesus. I uttered His name. Gradually I felt giddy. When I heard his voice, I became unconscious. My sufferings and diseases immediately vanished. Now prayer alone is my medicine always. Any one who goes there cannot but admit

that God exists. Anybody can see with his own eyes the power of the name of Jesus in the image of cross.

(8) ABORTION

(Haemorrhage disappeared)

Sri N. Narasayya

For 3 years, there was not a single day when my wife was healthy. She was simply tortured by Headache, palpitation, pains in the limbs etc. She had continuously 3 abortions. Gradually she developed Leucorrhea and uterine bleeding. All types of medical treatment were given. Several vows were made. But nothing could help. When we had given up all hopes someone suggested that I should take my wife to Sri Subbarao. So we went to him. He touched her, prayed and blessed her. Immediately there was relief. We took her 3 times to him afterwards. All her troubles disappeared and she was completely healed and we are now living quite peacefully and happily. What could not be achieved by medicines and human endeavour was accomplished by the grace of Lord Jesus. We never have seen such a wonderful thing.

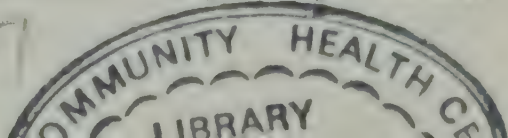

(9) HAEMATEMESIS

Mrs P. Ankamma

For the past 3 years I was suffering with illhealth, very often my legs became stiff and I could not move. Headache and heart palpitation were torturing me. Once in 4 or 5 days I used to vomit blood. Doctors examined me and gave me injections and medicines. In addition I developed other complaints also like, pain in the spine, uterine haemorrhage, pains in the muscles and joints and burning sensation all over the body. My body was not

457

3377

under my control. I began getting attacks of fainting. I also developed Dyspepsia and indigestion. In spite of taking all types of medicines, I could not be relieved, I began to despair of my life itself. Then one day somebody told me about Sri Subbarao and took me to him. There were many people gathered at Sri Subbarao's place. They were singing bhajan songs of Lord Jesus. Along with others I and my husband also stood before him. He blessed us. Immediately we felt as if an electric current was passing through our bodies. That day I felt much relief. Gradually all my complaints and sufferings vanished. Now I am quite healthy and happy.

(10) JAUNDICE - PARALYSIS

Mr. D. Daniel

My wife chandamani, aged 20 years, was suffering from Jaundice for the past 3 months. No amount of medical treatment could give her relief. After some time she developed paralysis of the leg and hand on one side. She could not walk by herself. We had to support her when she walked. Alopatic treatment was given. Yet she was deteriorating in health. On being told about Sri Subbarao, we took her to him in a car. We carried her in our arms and laid her in the varanda of his house. He uttered the name of Lord Jesus and touched her and blessed her. She became unconscious. She lay in that state for some time and when water was sprinkled on her she came to consciousness and got up. She began to walk by herself. When we saw her walk we were astonished. After that we took her twice to him. Her legs and hands became steady and straight and her Jaundice disappeared. She became completely healthy. We were christians and had taken baptism. But Sri Subbarao is a Hindu and had not taken baptism.

We were puzzled and started to think about it to find an explanation.

(11) BITTEN BY A WHITE COBRA

Sri P. Gopala Rao

One day in the evening, at 5 p.m., my son Pathuri Poornachandra Rao was bitten by a white cobra while he was walking in my orange garden. At once he fell down unconscious on the ground and foam and froth was coming out of his mouth. We were frightened and put him in a bullock cart and took him to Kankipadu. From there we took him in a taxi to Pamarru. He became almost dead. There was no sensation or activity in any part of the body. We lost all hopes and began to weep as the boy stopped even to breathe. Sri Subbarao uttered the name of Lord Jesus and touched the boy's head and chest. Immediately the boy moved his body and started to breathe. He sprinkled water on the boy's body and touched his eyes. The boy at once opened his eyes and said "Lord Jesus". He was asked by Sri Subbarao to get up and wash his hands and feet. The boy did accordingly. He became completely alright. We could never dream that such a miraculous change could happen within a short period of 3 or 4 minutes. All this was an unfathomable mystery to us., It was just as if the boy went to sleep and woke up.

(12) FEVER-VERTIGO

Sri K. Punneya

My wife Prasunamba began suffering a great deal ever since she delivered a child. Day and night she was tortured by severe headache, fever and indigestion. Gradually the suffering increased. We got her treated at the hospital at Tenali but with no benefit whatsoever. Afterwards we admitted her in a general hospital at Guntur.

There they took Xray pictures of her and said that she had disease of the bones. But their treatment could not give her any relief. Some one told us that Sri Subbarao was healing sick people by praying to Lord Jesus. So we took her to him. He blessed her. He took some frankincense (Sambrani), prayed over it, gave it to us and told us that we must burn it and show it before her ever day. We did accordingly. All her sufferings began to disappear gradually and within 16 days she became completely healthy.

13. STERILITY

Sri D. Satyanarayana

Now my wife Sitaramamma is 38 years old. She was quite healthy but had not issues. She was very much dejected and would often weep. Some said that Planetary influences were responsible for her sterility. We had her examined by doctors. For all these years we tried ever so many things to beget children but with no result. Doctors said that an operation was necessary but they could not perform the operation as she was too weak. So we gave up all hopes of having any issues. One of our relatives who was suffering from Rheumatoid Arthritis and who could not be cured by injections and medicines went to Sri Subbarao and was miraculously cured by him. When we heard about it, I took my wife to Sri Subbarao and he blessed both of us. My wife became giddy at the movement. After that she stopped weeping in the nights. She gradually improved in health. At the age of 38 she became pregnant and delivered a child. It was a great surprise for us. We are convinced that there is power in the name of Lord Jesus. Sri Subbarao's spirit of service without any desire for reward or remuneration deserves high praise.

(14) DISCEASE OF THE INTESTINES

Sri G. Rattayya

For 5 years my health had gradually deteriorated and I developed breathlessness, sleeplessness, indigestion and palpitation of the heart. I became so weak that I could not even walk. Whatever treatment people recommended I took. I took treatment from several doctors in several towns. But nothing could give me relief. Xray pictures were taken and I was told that there was disease in my intestines and lungs. Different doctors gave different opinions. At last I became disheartened and returned home. I was asked to perform various kinds of Cermonies and Pujas which I did. But my condition remained the same. I came to know through some one regarding Sri Subbarao. So I went to him. He uttered the name of Lord Jesus and placed his hand on my head. There was a thrill in my body and I shivered from head to foot. I perspired profusely. I felt as if my life was going out. I lost consciousness and fell down. After some time I regained consciousness. I felt as if I was healthy. I did not know where all my complaints had disappeared. From that day I am quite healty and am still alive.

(15) DYSMENORRHEA

Mrs. V. Hemavati

For 12 years I suffered from unbearable pain in the Abdomen. During menses I suffered hell, my whole body went to pieces. There was unbearable pain in every organ of my body. I cannot describe it. I even contemplated suicide. I took treatment at the Mission hospital at Uyyur. I also took treatment from an alopathic M. D. and several other Alopatic and Ayurvedic physicians. I underwent

surgical operations also. In spite of all treatment my suffering continued. Then I went to Sri Subbarao. At that time my suffering was at its peak. He uttered the name of Lord Jesus and touched me. At once I felt drowsy as if I had taken some anaesthetic drug. Within 5 or 6 minutes I became unconscious and went to sleep. I never had such sound sleep any time previously. I woke up after a long time. I felt as if some change had taken place in me. I felt as if a load has been lifted off my head. From that day I never experienced any of my previous sufferings.

(16) ENLARGEMENT OF SPLEEN

Sri G. B. Punnayya

One day I had an attack of severe pain in my abdomen and suffered much. The attacks of pain continued to come every day and my abdomen enlarged in size and my digestion became less. I developed heart palpitation and breathlessness, and sometimes I felt that I could not even see with my eyes. I became extremely weak and could not even walk. I was confined to bed. Tingling and numbness developed in my hands and feet. My belly grew considerably in size. I tried several types of treatment and consulted eminent allopathic doctors. They took X-ray pictures of my abdomen and said that there was a big tumour in my abdomen. They said that the tumour is continuing to grow and that I must undergo an operation immediately and that they cannot guarantee that the operation will be successful. As the operation was risky, my relatives took me to Sri Subbarao. At that time even my sight was defective, and I could not digest any food and could not walk. Sri Subbarao prayed for me and blessed me continuously for 15 days. Gradually my belly decreased in size. I gained strength. I became a normal man. Now I am quite heal-

thy and alive. The doctors who treated me must be thinking that I must have died long ago.

(17) L E P R O S Y

Sri B. Narasimharao

About 18 years ago, my health began to deteriorate. Gradually my whole body was covered with big white spots and I was very uncomfortable. Water was oozing from various places in the skin and I suffered with pain and burning sensation all over my body. For several years I took all types of treatment at Thadiparthi, Elore, Gopalapuram and Madras. But my disease increased and my body became hideous to look at. I felt ashamed to sit in the midst of people. People were afraid even to touch me. I was passing my days in great dejection and despair. While I was in this state, I came to know that one Sri Subbarao was curing various sick people and even people bitten by poisons snakes. But I felt doubtful if Sri Subbarao will be prepared to touch me. As there was no other go one day I went to him. At that time Sri Subbarao and his colleagues were singing bhajan. In that gathering there were so many persons who were healed by him and there were others who had come to be healed. Immediately after being touched and blessed by him they were falling down senseless. He touched and blessed me also. I felt a peculiar thrill in my body. I went regularly to him for some days. Gradually my disease began to decrease. The ugly spots on my body began to disappear. Other painful symptoms also vanished. Now I am perfectly healthy. Further I am having much peace in my mind. My very nature has changed. I am always praying to that master Lord Jesus and trying to follow his teachings.

(18) MENORRHAGEA

(Uterine Bleeding)

Mrs. K. H. S. Prasadini

For 8 years I had been suffering from profuse menstrual bleeding. I took great pains to have various types of treatment done. I wandered from place to place for treatment. I took various types of medicines. Twice I underwent surgical operation. Much money was spent but my disease continued to increase. I became extremely weak. I performed prayers and made vows but the result was nothing. I felt as if I was nearing my end. In this way I underwent untold suffering for 8 years. Somebody suggested to my husband that if he took me to Sri Subbarao I will be benefited. Though I had no belief, because there was no other alternative, we both went to him on one Sunday. All types of sick people were present there. Every one was receiving blessings from him and my turn also came. I felt as if it was all only a show. He uttered the name of Lord Jesus and touched my head. I felt a peculiar sensation throughout my body. I felt numb and became unconscious and fell down. After some time I came to consciousness and got up. My whole body was heavy. I felt as if some great power has touched me. In this way I received blessings from him for one week. My bleeding stopped. Now I am healthy.

(19) COBRA BITE

Sri V. Kotiah

It was about 1 p.m. one day, when I was attending to my bullocks, I felt that from under the grass below something had bitten the middle toe of my left foot and was

pulling it. I was frightened and pulled away my leg. A white cobra was clinging to my foot. I tried to shake it off but it was still clinging to my foot. Its teeth were stuck in the flesh of the toe and it could not be separated. I did not know what to do. I caught hold of the head of the cobra and pulled it hard. The teeth broke inside the flesh. The cobra coiled itself around my hand and was exerting strong pressure. I could not afford to leave my hold on its head. My body was becoming numb. I was perplexed and as I had heard about Sri Subbarao already, I ran with all my strength for a distance of about a mile and reached the residence of Sri Subbarao, all the time keeping my hold on the cobra. I almost lost my sight and consciousness. I felt as if my heart stopped beating and life was departing from me. I could not hear anything. Some body from Sri Subbarao came and pulled away the cobra from my hand and took me inside his house and placed me in his varandah. I was completely unconcious. After some time I heard someone uttering "Lord Jesus". After some more time I opened my eyes. There was a big crowd of people around me. Several buses were halted to see this miracle. I gradually regained my strength. I got up and was able to walk. Now I am very healthy. Only the skin of that toe peeled off.

(20) PARALYSIS OF LEGS

Mrs. T. Sakuntala

The mercy shown towards us by Lord Jesus is very great. It is only due to my good fortune. In my house every one of us was suffering from some disease or the other. For the past 10 years I was troubled with Piles and stomach pain and endured much suffering and for another 2 years I was being tortured by indigestion and rheumatic pains

My hands and feet almost became dead and I was confined to bed. No kind of treatment could give me any relief. I thought that there was no hope of my recovery and I will have to stay in this miserable plight for the rest of my life. While in this condition some one suggested that I should go to Sri Subbarao. So we went to Sri Subbarao. He uttered the name of Lord Jesus and touched my hands and legs and blessed me. Immediately my body became numb. I became unconscious and fell down. My hands and legs became alright. To obtain such a miraculous change in such a short time, what else can it be except gods grace? All my previous complaints had vanished within the twinkling of an eye. It is all due to the grace of the Lord. In addition to this, God had blessed me further. My daughter aged about 9 years who had paralysis of hands and legs was carried by us to Sri Subbarao. The movement she was touched by him she was healed and returned back to our village walking by herself. Another daughter of mine aged 11 years was suffering from enlarged tonsils in the throat. She was advised to undergo an operation urgently. When we took her to Sri Subbarao he uttered the name of Lord Jesus and touched her throat. Immediately she felt as if some lump dropped down from her throat into her stomach. At once she became completely healed. From that moment till now she was no complaint whatsoever. It is very unlikely that so much good could have happened to any household. God has been merciful to us in a special way. We offer our heartfelt gratitude to HIM.

(21) TYPHOID

Mr. K. S. Rama Rao

My son was suffering with high fever from 18 days. The temperature was 104°. Doctors said that it was Typhoid. At about 4 O'clock in the morning his body became

subnormal. There was no pulse. His eyeballs were rolled backwards. We ran to a doctor and brought him. He did something, and said that everything depended on the boy's fate and that his condition was very dangerous. One of my friends ran to Sri Subbarao and explained to him all about the boy's condition. Sri Subbarao assured that the boy will not die and he gave some Sambrani (Myrrh) and told that incense be given with it to the boy. We put the incense and uttered the name of Lord Jesus. At once the boy began to speak. We were puzzled. He said that he was an evil spirit and was troubling the boy. He said that now he has realised his mistake and was leaving the boy. For a boy who was on his death bed to speak in this fashion was only due to the Lord's power and we went on repeating the name of Lord Jesus. Next day morning Sri Subbarao himself came to our house and blessed my son and all of us. The boy gradually regained strength. My last child aged 2 months who was emaciated also began to recoup her health from that day and became perfectly healthy. My father who was 66 years of age had been suffering for two years with severe abdominal colic. In spite of all medical aid there was no relief. He was advised to undergo an operation. He also was completely healed by the blessings of Sri Subbarao. We can never forget Sri Subbarao's devotion, selfless service and the way he uses the name of Lord Jesus as a 'Maha Mantra' to heal diseases.

(22) TUBERCULOSIS (T. B.)

Sri B Rangarao, Machanic, R. T. C. Vijayawada

For 6 years I was suffering from ill health. Head-ache, indigestion and fever were constantly troubling me. Any amount of medical treatment could give no relief. In

the end, the fever and pain in the chest became unbearable. My mental balance also was disturbed. I took various types of treatment at Madras, Nellore and Bezwada. My condition was deteriorating from day to day. The Cough increased. I became extremely weak and had to be confined to bed. The doctors said that I was suffering from Tuberculosis and that my lungs were diseased. Life became unbearable. Several times I wept. When I was in that desparate condition my people took me to Sri Subbarao. There were several other sick people like me at his place. One hospital doctor who had previously examined me was also present there. They were singing songs of praise about Lord Jesus. To me, who had lost all hope all this looked like nonsense. I could never imagine that this noise and fuss can cure what eminent doctors could not cure. After sometime Sri Subbarao began to touch and each person. Some were falling down unconscious. Some were weeping I could not understand anything. He touched me also. My body got a thrill. I became unconscious. It is said I wept. After sometime I regained consciousness and got up. I felt that some great power had touched me. I felt that some great power had touched me. I felt that a great change had come over me. I became hopeful. I went to him 3 or 4 times more. All my sufferings disappeared. I am now carrying on my duties as a perfectly healthy person. The hospital doctor was a personal witness to all this. I regarded Sri Subbarao as one of my doctors and wanted to offer him fees for having cured me. But he refused to accept anything from me saying "What medicine have I given you that you want to pay me fees?" His selfless service is praiseworthy.

(23) ARTHRITIS OF KNEES

Sri M. Suryanarayana

For 5 years I suffered from swelling of both knees, I could not bend my knees. I tried various types of treatment but with no benefit. It became very difficult for me to even sit. My friends advised me to go to Sri Subbarao. But to me prayers, worship, particularly praying to Jesus Christ appeared to be mockery. I had no belief in any of these things. I never wanted to indulge in these foolish practices. But day by day my suffering became unbearable. One day my suffering became unbearable. One day I just wanted to try, as it cost me nothing. I went to their prayer meeting, When I went and attended every thing there attracted me. Along with others I also waited to receive Sri Subbarao's blessing. I gazed at the cross. I uttered the name of Lord Jesus. I felt as if my body was becoming numb, Sri Subbarao placed his hand on my head. That was all I know. After that I did not know what happened. After some time I came to my senses. I realised that I was lying down. I got up. All this was a surprise to me. I could not understand it all. After that I began going to him every day. All my sufferings vanished completely. My knees became alright. All my other complaints disappeared. I realised that there was some miraculous power in the name of Lord Jesus and in the figure of the cross. I could not understand why several people thought in different ways about Sri Subbarao and why I myself doubted him all these days. Missionaries some how came to know about my having been healed and they were after me pressing me to change my religion and take baptism. I could not understand what connection there was between my cure and baptism. Besides these people who were after me belonged to the Pentecostal

Mission whose doctrines were very confusing. They said that if I accepted their faith I would attain salvation. It is my earnest prayer to God that he will protect me from these fools.

(24) APPENDICITS

Sri P. K. Mohana Rao

For the past 7 years we had left our home and have been roaming from town to town undergoing untold suffering due to worries and sickness and consulting various doctors. Every day some one or the other in the family was having some ailment or the other. Not even one day we could spend happily and in good health. Fever, abortions, hysteria, appendicitis headache and ever so many peculiar diseases troubled us and we were completely broke. We consulted doctors, magicians, witch doctors, astrologers etc., to get relieved of our troubles. Some of them advised us to vacate the house as it was haunted. Anybody who treated us for 10 days would get fed up and say 'the case is hopeless!' In this way we were vexed. During this period I had an attack of acute pain in my stomach and consulted a famous doctor who examined me and said that I was suffering from Appendicitis and that I must undergo an operation and that there was danger to my life. I was half dead when I heard about it. At this time a prominent citizen of Masulipatam, Late Mr. Ramanayya Naidu M.L.A., told us about Sri Subbarao and we went to him. When both I and my wife sat in his meeting for a little while we felt much comfort. Along with others he blessed us also. From that very moment we do not know where our diseases and sufferings have gone. We are now free from any complaint or worry whatsoever. There is no limit to our astonishment at this miraculous change in us. It is all the grace

of Lord Jesus. Others find it difficult to believe our story when we tell them. We ourselves could not believe our eyes when we saw the miracles at Sri Subbarao's meetings.

(25) H E A R T P A I N (Myocarditis)

Mrs. K. Sri Krishnamma

I developed heart pain and heart palpitation which gradually became severe and could not be relieved by any medicines. My complaint slowly took a peculiar turn. I could not retain anything in my stomach. If I took any food or drank water I had to vomit it out immediately. No amount of medicine could relieve me of the trouble. This condition remained for about a week or 10 days and after that it subsided. After some days I developed breathlessness and burning sensation all over my body. Alopatic and Ayurvedic doctors and which doctors made me spend lot of money promising to cure me. But there was no relief and my suffering increased all the more. Some said that it was due to planetary and evil influences and made me spend to the extent of Rs. 300/- by way of performing pujas and ceremonies. But my condition remained the same. On being told by somebody regarding Sri Subbarao, we went to his healing meeting. After 3 days as we were sitting in his meeting and while he was singing Bhajan both myself and my husband became unconcious and fell down. After some time we regained conciousness and felt that our bodies were light. From that day I was able to retain food and drink. All my diseases and weakness have left me and I am perfectly healthy.

(26) PAINFUL MENSTRUATION (Dysmenorrhea)

Dr. Shanta Ramakrishna M. B. B S

For one year I suffered much with irregular and painful menstruation, heart pain and pain in the waist. I took various types of treatment including 'short wave therapy'. There was no relief. Gradually I became very weak. I lost all appetite. My eyes began to pain and I had to use spectacles. I was told by my friends that one Sri Subbarao has come to Hyderabad and that he was healing sick people with his prayers and blessings. I also went to his healing meeting. There were all types of sick people in big crowds. Sri Subbarao and some of his assistants were blessing the sick people. Myself and my husband also stood before him. Sri Subbarao touched us and said 'Lord Jesus'. At once I lost consciousness. My whole body became numb and I fell down. After some time when water was sprinkled over me I regained consciousness and got up. I was asked to look at the figure of the cross which was in front of me. When I looked accordingly I saw some kind of fire. I was unable to stand. I could not comprehend what it was all. It was something beyond the realm of my normal intellect or experience. That night I saw figures of the cross moving all around me. My mind was confused. I realised that there was much that I did not know.

From then onwards my sufferings and diseases began to disappear. I was able to read without the help of spectacles. I could understand that by God's power even impossible things can become possible. I even today when I think about that experience I feel very much astonished. I realised that there was some wonderful power in the name of

Lord Jesus and in the figure of the cross. May God abundantly bless Sri Subbarao and his wife who are demonstrating the power of the name of Lord Jesus and who are rendering selfless service to mankind.

(27) INSOMNIA (SLEEPLESSNESS)

Mrs. N L. Bayamma

Now I am 60 years of age. After I became old I went on pilgrimage to Kasi, Rameswaram, Prayag and Haridwar. I performed Kalipuja at Mysore. While I was on my way from Kanchi to Tirupathi I got fever and by the time I reached Tirupathi my temperature was very high and I reached home in an almost unconscious state. I gave feasts to people. But my health was deteriorating from that day. Even in that state of ill-health I continued to perform pujas. In spite of it my health continued to grow worse. Gradually I developed sleeplessness in the nights. I was having fearful dreams. Frightful figures appeared in my dreams. My mind was disturbed and I felt as if I was going mad. I could not relish food. I lost all appetite. I felt that some one was pressing my throat. I took treatment from witch doctors. I took all types of treatment. But my condition became worse. I became anaemic. I became pale. My hands and feet became numb and almost lifeless. I felt afraid all the time. I feared that I would die. My gurus advised me to perform further prayers which I did. But my troubles increased all the more. Then I was told that Sri Subbarao had come to our village and that I should meet him. I went to him. At that time he along with others was singing bhajan. He uttered the name of Lord Jesus and touched me. I became unconscious and fell down. I was told later that while I was unconscious I was speaking so many things. After some time

I regained my consciousness and got up. I felt as if some darkness had left me. I felt that my body had become light. I went to him for 2 more days. From that time my health was completely restored. It was a great surprise for me.

(28) GASTRIC ULCER

Mr. V. Basavayya

Three years ago I started having burning sensation in my heart. Gradually burning sensation and pain developed in my stomach. I could not tolerate the pain and used to roll on the ground. One renowned Alopatic doctor at Guntur took Xray picture of my stomach and treated me for one month. He could not cure me and in the end sent me away saying that there was no disease in me though I was suffering much. Then I was taken to another Allopathic doctor at Masulipatam. He said that I was suffering from high blood pressure. He could not see my suffering and gave me Morphia injections. But I could not be cured. I used to be tormented and wept day and night. That doctor showed me to the District Medical Officer there and I was admitted in the Government hospital. I was given 4 injections every day for 15 days. I was also given various kinds of oral medicines. But there was no relief. I was told that the injections and medicines that I took will show their effect in due course of time. I was given still more medicines. I returned home. Though I waited several days expecting to be cured, I was disappointed. My condition did not improve but became worse. Then another doctor at Challapalli gave me injections and asked me to go to Dr. ... of Guntur. I went once again to Guntur. I remained under his treatment for a month but still I could not be cured. They gave me intravenous

injections of a big bottle of medicine for about $2\frac{1}{2}$ hours and then X-rayed me and said that I had no disease. But as for my part, I was suffering from unbearable pain. I became highly disappointed. On the advice of some of my friends I took to praying to Lord Jesus. I was advised to go to Sri Subbarao. I went to him and stayed there for about a month. The moment he touched me, my pain stopped. Where the doctors had failed Sri Subbarao succeeded. Now I am alright and perfectly healthy.

(29) JAUNDICE

Mr. T. Nageswra Rao

I developed rash and scratching all over my body. I could not sleep even for a minute. I went to one doctor at Ma-ulipatam. He gave me injections. My suffering decreased to a certain extent but my appetite was completely lost. I became extremely weak. The colour of my body gradually changed. I could not move. My eyesight was also effected. People gave various names to my complaint. I discontinued his treatment and went to Challapalli. For 20 days I took Aurvedic treatment. I could not find any relief. I started taking treatment from an allopathic doctor. He gave me injections for a week and then sent me with a letter to the first physician of the American Mission hospital at Nuzveedu. He investigated my case for 4 days and again sent me back with a letter to Challapalli. Again I was given several medicines and injections. I could not get sleep. I did not sleep continuously for 3 months. The burning sensation and pain in my body became unbearable. I could not even sit up. In the end the doctor said that my case was hopeless and sent me home. After that, a witch doctor made me spend much money assuring me that he will cure me. But my suffering only increased.

My body and eyes became yellowish in colour. I thought it is better to die instead of bearing the suffering. Some friends advised me to be taken to Sri K. Subbarao. I was taken to him. There I saw several sick people like me. I cannot forget the miraculous change that came over me the moment I sat with him. My scratching and irritation on the skin stopped suddenly. I felt a kind soothing feeling. I felt hopeful. He uttered the name of Lord Jesus and placed his hand on my head. I do not remember what happened after that. I felt a peculiar thrill in my body and I became unconscious. After sometime I regained consciousness and found a great change. My painful symptoms were not there. I went back to my village that night. That night I slept soundly. That was the first time I slept after 3 months. I went to him for 4 or 5 days regularly. All my sufferings have vanished. I regained complete health. To this day I could not understand how this miracle has happened. The only thing I know is that it is a wonder.

(30) SNAKE BITE

Mr. Bh Manikyarao

One day in the morning when my wife was gathering vegetables in my garden a green snake bit her. At once she became unconscious and fell down. All types of medical aid available in my village were given but with no effect. So we took her in a bullock cart to Nagayilanka. Big crowd had gathered. Whatever any body advised we did. Medicines were given. Magicians came and tried their methods. It was about 8 O'clock in the night. We lost all hopes and were greatly worried. On someone's advise we ran hastily to Sri Subbarao's residence and brought him and his wife. But we still did not have any hopes. Sri Subbarao got down from the car and went straight to her, uttered the

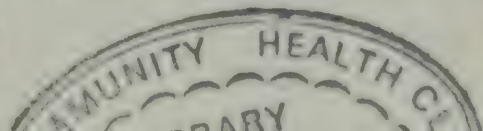

words 'Lord Jesus' and touched her. Immediately she moved. He sprinkled some water on her body and asked her to get up. She got up and sat. We could not believe our eyes. He asked her to go and have a bath. She did accordingly and became a normal person. Before the people who had gathered outside knew about this miracle Sri Subbarao went away. When no amount of medicines, mantras and Magic could have any effect, how Sri Subbarao was able to cure her by just touching her and uttering the name of Lord Jesus, within a minute was a great wonder to us. From that day through his acquaintance I also became a devotee of Lord Jesus. I have seen with my own eyes greater miracles than these wrought by Sri Subbarao. I also learnt to do similar cures along with others.

(31) INSANITY

Mr. D Nagayya

One morning my wife Varamma suddenly shrieked aloud from her bed saying 'Ammo'. Her hands and legs became tant and twisted. She was staring and could not close her eyelids. There was a loud gurgling sound in her throat. One eye ball became red and the eyelid was swollen. We became perplexed and took her to a doctor at Kondapally. He gave her tablets and injections one after another. The symptoms instead of decreasing increased. He could not understand what it was and said that she was devil possessed and asked us to take her home. We took her to a witch doctor. He uttered aloud several mantras. She became all the more worse and fell down and was rolling on the ground. Some said it was somekind of Rheumatism, others said some other thing and every one gave different kinds of diagnosis and confused us. We were advised to take her to renowned doctors, but her condition was

0337

worsening every minute and we feared that she was about to die. We thought that even God will not be able to save her. We took her in a car to the American Mission hospital at Bezwada. They gave her injections but said that nothing could be done for that eye which was red and swollen. We took her to Doctor who put some medicine in her eyes. After that again we took her back to the American Mission hospital. We fomented her eye. That evening the hospital 'Padre' came and prayed and blessed her and advised that she should take baptism and became a christian. That night at 8 p. m. she became still worse. She began to shreik wildly, became furious and began to move all over the hospital frightening and terrorising all the other patients there. Next day morning the 'Padre' came again, prayed and blessed her and gave the same advise. There was no result whatsoever. In the meantime another woman who had a sililar complaint died in the hospital. When we saw it our fears knew no bounds. In the end the doctor there told us that they cannot treat her and that it is case of devil possession and asked us to take her home. I could not understand why they couldnot treat her, and why their Padres had no power to drive away the devil if it was a case of devil possession because it is said that Lord Jesus healed all kinds of deseases. However we had no other go except to bring her back home. We put her in the house and locked the door from outside. Within an hour's time she broke to pieces all the articles that were in the house. No body had the courage to go near her. We did not know what to do. Just then a friend advised us to take her to Pamarru. With great difficulty we took her in a car to Sri Subbarao's house. He atonce touched her and blessed her. He encouraged us and said that she will be alright in a couple of days. She gradually came under control from

that moment. We took her to him 2 or 3 times more. She became completely cured. All her sufferings disappeared. Just by attending his meetings for 5 or 6 times, that such a great miracle should happen was most astonishing to me. What my devotion could not achieve, what eminent doctors could not do, and what 'Padres' could not do, Sri Subbarao who did not belong to any particular faith could achieve. This was a wonder to me.

(32) INTESTINAL TUBERCULOSIS

Ch. Kameswaramma B. A.

About 2 years ago I developed indigestion and gastric trouble. Even if I took light food I could not digest it, I would have loose motions and stomach was paining acutely. For some months I took treatment with allopathic doctors at Gudivada. There appeared to be some temporary relief but I grew weaker day by day. I took treatment with another doctor. Even then my complaint was not cured. Even if I took fruit juice or water my stomach was upset and became bloated. The slightest movement caused pain. Gradually I lost my appetite completely. I could not even walk. I became bed ridden. There were big noises in my stomach. Other complaints also developed. Pains in legs, giddiness in the head, heart palpitation, and leucorrhoea also developed and my sufferings became unbearable. I was taken to a famous specialist in Guntur who diagnosed my disease as tuberculosis of the intestines. Tablets, medicines, tonics and injections were daily given in great number. This went on for nearly 2 months but no benefit was derived. I grew weaker day by day and was nearing my end. I gave up all hopes of recovery. Then the doctor himself took me along with him to Sri Subbarao. This was a funny

thing to me and proved that the doctor was not capable of treating me. Sri Subbarao was singing songs of praise to Lord Jesus. I thought that it was all show and deception. I thought it was just a stunt to convert people to christianity and to earn money. After some time, the sick people went one after the other and stood before Sri Subbarao and received his blessings. When my turn came I also went and stood before him. Immediately I had a wonderful experience which I could never imagine even in my dreams. It was beyond my power to understand it. When I stood before him and looked at the figure of the cross, my whole body began to shiver. I felt giddy and fell down unconscious. When water was sprinkled over me I regained consciousness and got up. We went back to Gudivada. The whole of that day, my body was numb. Every thing was a puzzle to me. We went to him 3 times. All my diseases and sufferings miraculously vanished. When I think about it all, I am myself unable to believe it. But the doctor himself was an eyewitness. Later I came to know that Sri Subbarao is a man who has no particular religion and that he does not accept any monetary reward, not even a pie. I repented very much for having entertained wrong notions about him in the beginning.

(33) SKIN DISEASE

Mr. K. Sriramulu

For 4 years I suffered from a peculiar skin disease. There were big black spots on my legs, which became ulcerated and became painful. I tried various kinds of treatment, both alopathic and Ayurvedic. I performed various pujas and vows. But my suffering increased all the more. I could not bear my suffering and went to Sri Subbarao. It was a Sunday and there was a big gathering at his place where a number of sick patients and elders were present.

He was singing Bhajan and blessing people. When he uttered the name of Lord Jesus and touched the sick people they were miraculously healed. He was not accepting any offerings or even fruits. It was a great surprise to me. He blessed me also. I felt as if some divine power had touched me. I came to know that he did not become a christian or take baptism like me. But it was clearly evident that the Lord Jesus was with him. I then realised that religion was only nominal but the real thing that mattered was bhakti which Sri Subbarao had.

From that day onwards my health improved. I received beautiful training. My eyes were opened. I gained lot of bhakti and wisdom. I had peace of mind. I offer my grateful thanks to Sri Subbarao who is every day healing the sick and rendering selfless service to the world.

(34) V O M I T S

Sri P. Anjamaraju

For 13 years I suffered from illhealth. Soon after taking food I used to vomit. Even when I was hungry the sight of food created in me an uncomfortable feeling and I could not eat. I was having all the time terrible pain in my arms, legs and shoulders. Within these 13 years I took treatment with even magicians and witch doctors. But my suffering did not decrease. Gradually I began to have diarrhea. Every day I had about 10 or 12 loose motions. I became very weak and emaciated. I lost all hope. Then some one told me about Sri Subbarao of Pamarru. I and my wife went one day and sat in his prayer meeting. He sang songs of praise of Lord Jesus for some time and then started to bless the people, one after another. He touched and blessed us also. At once we felt our bodies becoming numb. We lost control over our bodies. We became un-

conscious and fell down. From that day I am able to eat food and digest it. Within 10 days after that, I regained normal health. My diseases and sufferings have all vanished. What I could not obtain even after spending so much money on medical treatment for 13 years, I was able to get within a few moments by the grace of Lord Jesus. This is a wonder to me and my wife.

(35) H I C C U P S

Mr. A. Krishnamurty

Our baby was 2 months old. From the time she was born, she was having hiccups, day and night, and due to the strain her chest got depressed. While she breathed peculiar sounds came out of her throat. We did not know at what moment she would die. We could not see the agony she was suffering. We had medicines and injections given by allopathic doctors. But there was absolutely no relief. Our anxiety was beyond description. Then some people of our locality said that if the child were to be taken to Sri Subbarao of Pamarru she would be cured. One Sunday we took the child to him. Many people were gathered there. He was singing songs of praise of Lord Jesus. After some time he started to bless the people. We also carried our baby and stood before him. The moment he touched both me and my wife we became unconscious and fell down. After some time we regained consciousness and got up. We were told that while we were lying down unconscious, our baby did not have any hiccoughs. We became hopeful and stayed there for about a week attending his prayer meetings. Our baby became completely alright and healthy. Even in our dreams we never thought that our child would be cured. It is a great wonder to us that by blessing us, our baby could be healed.

(36) WOUNDS DUE TO BURNS

Mrs. V. Koteswaramma

For 3 years I was getting hysterical fits. I used to fall down senseless and had convulsions of the body. I had palpitation of the heart. Once I had a similar attack and fell in the fire unconscious and burnt the right side of my chest. There was none in the house. After some time I regained consciousness and realised that I was burnt and and felt unbearable pain. I was treated by alopathic doctors who gave me 10 injections tablets and dressed my burns. Though I took treatment for 6 months the wounds caused by burns did not heal.

I waited for several days but my wounds did not heal and I could not get sleep due to the pain. Then someone told me about Sri Subbarao of Pamarru and I went to his prayer meeting. As a result of prayers to Lord Jesus all my wounds healed up miraculously. My fits also vanished.

(37) INSANITY

Mrs. M. Nancharamma

My self and my husband Sri M. Krishnarao along with our little baby were traveling by train from Bhagalkot to Puligadda village in Divi Taluk, via Guntakal. As we were nearing Guntur during early morning, my husband suddenly fell on the feet of anotehr passenger and began to weep. All the passengers in the compartment got frightened and pulled the chain, stopped the train and vacated the compartment. The police came and saw and they also went away. When I saw that my husband who was alright, suddenly becoming like this I also got perplexed and felt like going mad. I began weeping miserably. There was

no one to console me. Every one was afraid. My husband beat me severely and was forcing me to throw away the baby out of the train. Some how we reached Guntur and got into the train to Repalli. Two friends from Avanigadda met us. God alone knows how they helped us to reach Puligadda. I do not remember anything. All the people of the village came to see us and my husband began to scold them and kick them. All the people joined together, caught hold of him and tied him up to a pillar. For 10 days he did not have any food or drink. It is a wonder how he was able to live. Medicines and injections were given to him but his condition became worse. We underwent untold suffering. Seven or eight persons joined together and took him with grate difficulty to Sri Subbarao of Pamarru. The moment he saw him he became calm. He drank milk and ate fruits. Daily we attended his prayer meetings to worship Lord Jesus. Gradually he became alright and was restored to perfect health.

(38) DEVIL POSSESSION

Mrs. V. Ratna Manikyam

For 3 months my husband Sri/Sitaramayya was suffering with pains in the legs and waist and fearful dreams. Gradually he began to get attacks of unconsciousness and laughing and weeping like a mad man. We took him to a doctor at Gudivada. He examined and said that there was no serious disease and that it was simply the result of indigestion and constipation and gave him treatment. While taking treatment his madness increased and would shriek and complain that somebody was pressing on his heart and beating him. During nights he became senseless and used to run about in the streets. On the advice of some friends

we took him to some pious people at Bezwada. They said that it was the effect of black magic. They tied some talismans to his arm and assured that he will be alright. But his condition only became worse. He started to weep, shout loudly, and laugh and attack people going on the road. Then about 7 or 8 people caught hold of him and tied him up to a pillar. Some body poured 100 pots of water on his head. The condition became still worse. It became impossible to tie him up also. Then someone advised that he should be taken to Sri Subbarao of Pamarru. So we took him. The momment he saw Sri Subbarao he began to shiver and in an obedient manner confessed that he was an evil spirit and because Lord Jesus was commanding him to go he was leaving. So saying he fell down unconscious. Sri Subbarao uttered the name of Lord Jesus and sprinkled some water on him. Thereupon he got up and began to speak like a normal person. Within 2 days after that, all his madness vanished and he regained perfect health. That my husband should have been cured within 10 minutes is a great wonder to me.

(39) MENSTRUAL PAIN

Mrs. T. Anjamma

For the past 5 years I suffered very much. There was intolerable pain in my legs. To control the pain I used to tie ropes tightly around my knees. I had unbearable pain in my head, breathlessness, and severe constipation. More than all, the menstrual pain tortured me and I used to roll on the ground during pain. I took several types of Alopathic and Ayurvedic treatment. I made vows and performed pujas but not one of my complaints was relieved; on the otherhand became worse. Then when told by one of my relatives regarding Sri Subbarao of Pamarru, Krishna

District I went to attend his prayer meeting. The moment he uttered the name of Lord Jesus and touched me and blessed me, my body became numb and I became unconscious and fell down and got up after a while. All my complaints and sufferings disappeared from that very moment. On the third day when he blessed me I became unconscious again. It seems that during my unconscious state the evil spirit in me spoke through me and said that its name was Pichamma and that it was causing me all my sufferings and that it is now departing from me and going away. The same thing happened. The evil spirit departed from me and I became completely alright.

(40) EXCESSIVE MENSTRUAL BLEEDING

(Menorrhagea)

Mrs B. Anjamma

For one year I was suffering from excessive menstrual bleeding. Due to this complaint other complications like stomach pain, pains in legs and indigestion also developed. I spent much money in taking treatment at Various places. I have also sought the help of spiritualists and magicians. I tried on my body various talismans given by them. But there was no relief. I gradually became very weak. Due to weakness I could not even walk. One day my mother came to me and told me about the wonderful cures that Sri Subbarao was performing at Pamarru. She took me to him. I also took part along with others in Subbarao's prayer meeting. He said 'Lord Jesus' and placed his hand on my head. I became giddy and my body became numb. From that moment all my sufferings vanished. Now I am perfectly healthy.

(41) HEART PAIN

Sri M. Ramanayya

About 8 years ago, one day I had severe stomach ache and several loose motions throughout the day and became dangerously ill. Some how I was alright the next day. But from then onwards my health began deteriorating. Pain started at the region of the umbilicus and spread upwards to the heart region and became unbearable. My legs used to ache continuously. I took various types of treatment from Alopahic and Ayurvedic doctors. Some said that I had an ulcer in the stomach, some said that ulcer was in the intestines some said that I must take Xray pictures and so on and so forth. I was given medicines and injections. But my sufferings instead of decreasing only increased. In this way I suffered hell for 9 years. In the end an eminent surgeon at Tenali said that I must undergo an operation. I was afraid and did not undergo any operation. I continued to suffer. Some people advised me to perform vows and pujas. I did accordingly. I was asked to perform Bhajans and observe fasts. I did those also. Whatever any body advised I did accordingly. But my suffering was not relieved. One day one of my friends told me that he had been miraculously healed of insanity by the blessings of one Sri Subbarao and several other sick people also have been healed. He said that Sri Subbarao would be coming to our parts shortly. One day I came to know that Sri Subbarao had come to our village and I went to see him. Sri Subbarao asked me to look at the figure of the cross and salute it. He uttered the name of Lord Jesus and placed his hand on my belly. At once my body became numb and I became unconscious and fell down. After some time I regained consciousness, got up and went home. From that moment the pain which was troubling me every

day, suddenly vanished. My digestion became alright and I began gaining strength. This is a great wonder to me which I had never seen or heard of.

(42) LEUCORRHEA

Mrs. M. V. Subbamma

For the past 8 years my health was not alright. I was having leucorrhea, noises in my head, pains in legs and I had my menses once in 4 months. During nights I had no sleep. I took plenty of medicines and became disgusted with treatment. I could not spend much money on private treatment as I could not afford it. I did not derive any benefit from medical treatment. One day my neighbour told me that one Sri Subbarao had come to our village and that he was healing various types of sick people. I was advised to see him. I went along with others and stood before Sri Subbarao and wished him. The moment I saw him I felt as if I was becoming unconscious. He said 'Lord Jesus' and gazed at me. I became completely unconscious and fell down. After some time I regained consciousness. From that moment all my sufferings have vanished. I am sleeping well and I am perfectly healthy.

(43) INSANITY

Mr. J. Isaac

I am a christian. I am quite a pious man. I have met several 'padres' and heard their preaching. I attended christian devotional meetings and took part in them. But no where else have I seen such wonderful miracles as I have seen with my own eyes in Sri Subba Rao's meetings. Sri Subbarao is not a christian and has not taken baptism. But when we see his wonderful deeds it looks as if Lord Jesus

has specially selected him and transferred to him all his power. Otherwise it is not possible for Sri Subbarao to deal with so many people suffering with such dreadful diseases. It is beyond the capacity of any ordinary human being.

My 14 years daughter was suffering from peculiar disease. She would avoid being seen by people and hid herself in corners. Gradually she could not speak or see. She used to get frightened and weep. She stopped eating food. She became completely mad.

My community people prayed for her but with no result and they asked me to admit her in the hospital. On the advice of one of my friends we somehow carried her in an unconscious state to Sri Subbarao's place at Pamarru. After receiving his blessings within 2 days my daughter became perfectly alright. Then I realised religion and observance of religious practices were not important. What mattered was bhakti and prayer.

(44) NEURITIC PAINS

Kumari M. Jamanatham

For the past 15 years I have been suffering from headache, burning sensation in the eyes and pain in the nerves of the neck. Some times the pain in the neck became so acute that I could not bend my neck. I took various types of Alopathic and Ayurvedic treatments but with no benefit. Dr. A. Laxmipathy examined me and said that my complaint was incurable and that I will have to keep on suffering all my life. I applied various kinds of ointments. I was hearing about Sri Subbarao for a long time but I did not go to him as I had no faith in him. One day out of curiosity I went and sat in his prayer meeting.

When I was hearing him singing I felt as if something got loosened in my neck. When I went and stood before him for his blessing my body became numb. When he uttered the name of Lord Jesus and touched me I became unconscious and fell down. After some time water was sprinkled over me and I got up. From that day all my sufferings have disappeared. All this is a great wonder to me. It is certain that there is some great power in the name of Lord Jesus which is much greater than any medical treatment in the world.

(45) SORCERY (BLACK MAGIC)

Mr. S. Rajayya

My daughter Krishnakumari, from the very second day after her marriage, became melancholic and absent-minded and stopped taking food. Several times she got fits of unconsciousness, when her hands and legs got twisted and tense. It was a surprise how she was alive without eating any food. We had her treated by various doctors in our locality. Her condition deteriorated and we gave up all hope of her recovery.

One day we paid heavy fees and brought one renowned doctor, who was a specialist for such diseases. In his very presence she had an attack, her tongue was pulled inside and her eyes got turned upwards. The specialist examined her pulse and declared that she was about to die and that nothing can be done to help her.

Ever since Sri Subbarao came to our town we were hearing about him but we never attached much importance to him. But when we saw our daughter in this critical stage we remembered him and went and brought him. The

doctor also was present. Sri Subbarao came and uttered the name of Lord Jesus and touched my daughter. Immediately my daughter who was almost dead began to move. She opened her eyes and mouth. We could not believe our eyes. We were watching with surprise. The doctor who was also watching was blinking with surprise. He was crestfallen and took leave of us and slipped off. Sri Subbarao made her drink some milk and made her lie down on a bed. The crisis was past but her complaints remained.

The next day when Sri Subbarao prayed and touched her she became unconscious and began to speak in that unconscious state. He asked her 'who are you?' She said that she was Adi Sakti and she came into her as she was sent by a certain magician (sorcerer) and she wanted to kill my daughter; but now that Lord Jesus is commanding her to go and she is helpless. On hearing this Sri Subbarao commanded her to go and never again come. She said that she was going away and promised not to come again. So saying she left and my daughter went to sleep. After a while when water was sprinkled on her she got up and became a normal person. She became quite healthy. Whenever we think what had happened, there is no end to our astonishment. What these diseases are, and what these miracles are we are unable to understand.

(46) SPASM OF THE THROAT

Mrs. Y. Annapurna

For the past 3 years I was suffering from heart palpitation and pains in the legs and became extremely weak. I took various medicines but with no benefit, gradually I became anaemic and pale. I was taking treatment from an eminent allopathic doctor at Kankipadu. One day I felt as if my throat was getting constricted. My neck also became

tightened and I could not breathe. Though I was conscious I was not able to open my mouth. I felt as if I was going to die. I was taken in a bullock cart to Sri Subbarao's house and put in his varandah. He atonce prayed, uttered the name of Lord Jesus and touched my throat. Atonce my throat got relaxed and free. I drank water. From that moment I recovered. Whenever I think of that miracle which happened that night I am greatly astonished.

(47) COBRA BITE

Mr. V. Ramakotiah,

Editor "PRAGATI" Vijayawada.

While I was talking with Sri Subbarao, a message was received that some woman who was bitten by a cobra has been brought and that her condition was very serious and that Sri Subbarao was asked to go there immediately. He atonce went home. I also went there with a curiosity to see what will happen. Several people had gathered there and were very excited. The woman was lying in the verandah. There were no movements in her. Her limbs were stiff. Her eyes were closed. The pulse was very feeble and indicated that life was still present. At once Sri Subbarao's wife brought a bible and read a few verses. After that both of them meditated on the Lord Jesus and sprinkled some water on her and commanded her to sit up. The woman's hands and legs began to move and she opened her eyes and got up. I was astonished. They prayed over some water and gave it to her. She took that water, got up and walked away. This was a miracle indeed. I do not know how to praise Sri Subbarao who is not a christian and yet in the name of Lord Jesus is doing such wonderful service to mankind. From that moment I became interested to know about the secret of his power and one Sunday attended his

prayer meeting. I witnessed the happenings there and was bewildered. I saw with my naked eyes the power of God. I could not understand whether that power was in the figure of the cross, or in the name of Lord Jesus, or in Sri Subbarao himself.

I heard several confessions from the people there as to how they were healed and saved from death by Sri Subbarao's blessings.

(48) MENTAL DISEASE

Mr. A. Ratnam

My wife suddenly, one day, lost her mental balance and behaved peculiarly. We were very much worried. We tried in several ways to restore her to normal condition but failed. Some days passed. On being told about Sri Subbarao I took her to him. We made her sit in his prayer meeting. From the very moment he blessed her, there was a change in her and she became completely alright. Besides this complaint, all other complaints and diseases with which she had been suffering since her childhood also disappeared. We are now living peacefully. Several sick people are coming to her also and getting cured. After we received his blessings we had wonderful experiences. In our programme here we are following his instructions.

(49) DEVIL POSSESSION

Mr. A. Narasimha Rao

I worshipped Kali, learnt black magic and had evil desires and ideas. I do not know what went wrong in my puja performances, they only reacted adversely on me and my wife and we began to suffer. We became unhealthy. We took my wife to Sri Subbarao. The moment she saw

him the devil that had possessed her began to speak and on being commanded by Sri Subbarao departed from her. From that moment she became healthy. Then my turn came. My knees got swollen and painful and I became bedridden. Due to the pain I had no sleep either during the day or night. Doctors examined me and declared that some decay had taken place in my knees. My mind was completely diseased and I suffered much. Then Sri Subbarao was brought. He prayed and touched my knees. From that moment I became miraculously healed. My leg was not removed. Now I am perfectly healthy. All this has happened due to the grace of Lord Jesus.

(50) F I T S

Mrs V. G. Prasunamba

For 2 years I have been suffering from fever and indigestion. In addition I was having fits. Once I had an attack and fell down unconscious and was in that state for a long time though several people tried in so many ways to make me regain consciousness. I was treated at the hospitals in Tenali and Guntur and also at the Mission hospital in Ponnur. I spent much money. But all that was in vain and my condition became worse. On the advice of one of my friends I went to the prayer meeting of Sri Subbarao. He blessed me in the name of Lord Jesus twice and I became completely alright. I am now enjoying perfect health.

(51) LOCK JAW

(Tightening of Mouth)

Mr. G. Kotiah

One night my son aged 30 years who was till then quite well suddenly had a feeling of constriction in his

throat. His neck became hardened and swollen. He could not speak. He could not eat or drink anything. However much he tried he could not open his mouth. Doctors and magicians tried their best till the next day evening to relieve his trouble but were not successful. His condition only worsened. We were alarmed. We took him in a car to Sri Subbarao's house in Pamarru and laid him in his varandah. Sri Subbarao meditated on Lord Jesus and touched his throat. Immediately he opened his mouth and began to speak. We were greatly astonished.

(52) FEVER

Mr. Chelikani Venkata Narasimha Rao

I suffered much because of fever which kept on coming now and again for more than 2 years. It was not regular. It came once in 5 or 10 or 20 days and remained for a day and subsided. I took several medicines, but with no benefit. In the end I went to Madras and other places and had various investigations done. All the doctors who examined me said that they could not find any defect in me. They were also puzzled. While in this state, on the advice of my friends, I went to Sri Subbarao. It was prayer time when I went. The way Sri Subbarao prayed and after prayer how he demonstrated the grace of the Lord on the sick people gave me lot of surprise and delight.

In the end he meditated on Lord Jesus and placed his hand on my head and blessed me. From that moment the fever never came again. What is impossible for God Almighty?

Faith is the main factor on which the entire universe depends. It is faith alone which is the road leading to the

Lord of the universe. Doubt leads to destruction. My salutations and praises to Sri Subbarao who is healing the sick and serving mankind without any desire for reward.

(53) TUBERCULOSIS

Mr. Y. Bhaskara Rao

My sister Rangamma was suffering for three years from fever and and cough. She became very emaciated. I had several medicines and injections given to her. But there was no relief. Xray photo was taken and it was diagnosed that she was suffering from Tuberculosis. All the medicines that she took only gave temporary relief but could not cure her disease. The fever, headache and caught became severe and for 20 days she did not take any food. She became extremely weak and one day she fainted and fell down. She could not open her mouth or speak. Glucose water was put in her mouth but she could not swallow and the water flowed out by the side of the mouth. She was unconscious. We thought that she will die. We had been hearing of Sri Subbarao since some time. On the advice of some elders we put her in a cart and took her to his house which was about a mile away and laid her in the varandah. Sri Subbarao prayed and uttering the name of Lord Jesus touched her throat. At once she came to consciousness and opened her mouth. He gave her one glass of milk which she drank. As we saw all this we were immensely astonished. From that moment the fever disappeared. She started eating food from the next day and in a week's time she gained enough strength to walk to his house and attend the prayer meetings.

(54) AN UNKNOWN DESEASE

Mr. V. Venkateswara Rao

One day my wife was lying in bed and feeling very uneasy. However much we called her she did not answer. She did not even look at us. She was unconscious. She could not take food. She did not pass urine or stools. Her condition became precarious. We called doctors and medicines and injections were given. We did all possible things but there was no benefit. In this way 3 days passed. Day and night she was in this state. On the 4th day we put her in a cart and took her to Sri Subbarao. We went in and told him about her case. He immediately came out and went near her who was lying in the cart. He Uttered the name of Lord Jesus and sprinkled some water on her and asked her to get up. She immediately got up and sat. We were greatly astonished. We never thought that she could be made alright in such an easy manner and in such a short time. She got down from the cart and walked by herself into the varandah inside. Sri Subbarao blessed her. She became a normal person and we went home rejoicing.

(55) LEUCORRHEA

Mrs. Bala Annapurna

For 10 years I was suffering from pain in my lower abdomen and leucorrhoea (white discharge). Doctors said that it was due to displacement of the uterus. Lots of medicines were given. In the end they said that it was not possible for them to cure me. I was having frequent abortions. My condition was becoming serious and I was advised to undergo surgical operation. I was told that if I had one more abortion my life would be in danger. I star-

ted going to Sri Subbarao's prayer meetings. Whenever I had an attack of pain Sri Subbarao blessed some water and gave me which I drank. I was also burning and using the incense which he gave me. My pregnancy was retained and after full term I had a safe delivery. My self and my child are perfectly healthy. This is nothing else except the power of Lord Jesus. There is nothing which God's grace cannot achieve.

(56) WARTS

Mrs. D. V. T. Sundaramma

About 6 months ago, I gradually developed scratching and a number of black warts about the size of a soap-nut appeared all over my body and I was having great discomfort. I was given 60 injections intramuscularly and intravenously. Several medicines were given. But I did not derive any benefit. Some one told me regarding Sri Subbarao. I went to him and took part in the prayer to Lord Jesus. I received Sri Subbarao's blessings. I burned regularly the incense which Sri Subbarao blessed and gave me. The black warts which troubled me gradually decreased and within a week's time all of them disappeared.

Now I am perfectly healthy.

(57) GASTRIC PAIN

Mr. K. Satyanarayana

I am an old man and experienced. But something wonderful happened which was beyond all my experience. For two years I had been suffering from severe gastric pain and unable to bear it used to roll on the ground. The medicines which doctors gave me had no effect. In the end I was asked to undergo an operation. In this old age of

mine I was not prepared to undergo operation. At that time I heard about Sri Subbarao. I was told that very serious diseases including cobra bites were being cured by him. That night I dreamt and saw in my dream Sri Subbarao healing sick people. In the meantime my grandson became ill and was taken by my son to Sri Subbarao and was healed by him. My wife also had a dream in which some one advised her to take me to Sri Subbarao. My son also gave me the same advice. So I went to Sri Subbarao's house. He spoke a few words to me regarding, God, religion and human beings and blessed me and gave me a photo of the cross and sent me home. Whenever I got an attack of pain I would look at the photo and say 'Lord Jesus' and my pain vanished completely. I had a long talk with Sri Subbarao. By just looking at him, by uttering the name of Lord Jesus and by looking at the figure of the cross several miracles are taking place. Any body can witness these things on any Sunday.

(58) HYSTERIA

Mr. N. K. Nageswararao

One day I had pain in my throat and there was spasm of my neck muscles and I could not breathe. I began beating about my hands and legs, lost control of my body and became so violent that even 10 people couldnot hold me. In the end I became unconcious. Atonce I was taken to Masulipatam and given treatment from an alopathic doctor. I was given treatment for 3 months and kept on strict diet. Inspite of it there was no improvment in my condition; on the other hand, it became worse. I could not eat food and became bedridden. The doctor said that it was not possible for him to cure me. Then I was continually in a state of unconciousness. Day and night I had

violent fits. My people, thinking that my case had become hopeless, put me in a car and were bringing me home on the way they halted at Sri Subbarao's house. Sri Subbarao had me laid in his Verandah and prayed for me. I came to consciousness and ate food which was placed before me. I stayed there for about 2 months more. I took part in the prayer meetings of Lord Jesus. I did not die. I am alive and healthy.

(59) EPILEPSY

Mr Ravi Nagayya

My son Basaviah, aged 18 years, one day, all of a sudden, had a fit of unconsciousness and was bringing out froth from his mouth and his throat was in a spasm. We feared that he would not live. We took him to eminent physicians. Some said it was epilepsy and some said something else. Several injections and medicines were given but there was no benefit. He could not regain consciousness. He had violent attacks of fits. We could not see his suffering. We never thought that he would survive. We took him in a car to Sri Subbarao. He uttered the name of Lord Jesus and looked at the boy and at once he became calm. It was not necessary for any body to hold him. When Sri Subbarao commanded, the spirit in the boy manifested itself and spoke saying that it was 'Mari' and that it was leaving the boy. It was a great surprise to us. The boy stayed there for some days and received Sri Subbarao's blessings and became completely cured.

(60) NEPHRITIS

(Kidney disease)

Mr. A. Jermiah

I had an attack of severe abdominal colic and I went and got admitted in the American mission hospital. For

one week I was taking several medicines but my pain was unbearable. Xray photo was taken and I was told that there was something in my kidney and that I must undergo surgical operation. If I should take treatment in a private clinic I will have to spend much money which I could not afford. So I wanted to go to Vijag hospital and get myself operated. I came home and told my wife about my intention and both of us were very much grieved. If I went to Vizag it would take a month or two for my treatment and I will have to be without my salary for that period which means that my children will have to starve. We did not know what to do. My head master was Sri Subbarao. So my wife went to him and explained all about our difficulties to him and his wife and cried before them. Both of them were moved with pity and consoled my wife and came to our house. My neighbours who^s had come to visit me also gathered at my house. I was lying on my bed and suffering with acute pain, and was not even able to open my eyes. Sri Subbarao came and touched me and prayed saying 'Lord Jesus' have mercy on this poor child. I felt a peculiar sensation in my body. I felt as if some insect-like thing getting detached from the side of my body and falling away. From that moment all my pain had vanished. I who had endless pain for one week prior to that and had not even a wink of sleep, had sound sleep that night. I had previously applied for leave which was to commence from the next day. But I cancelled my leave and resumed duty. When ever I think of it, I myself am not able to believe it. I am a christian. The doctor who treated me is a christian. The hospital where I took treatment was also of christian mission. Even Xray photos have been taken. The doctors who treated me were eminent physicians. I had all the while suffered endless pain. But in a moment all my suffering

had vanished through Sri Subbarao's prayer. This is a great wonder to me.

(61) INSANITY

Mr. M Venkataramayya

My daughter one night began bawling out like a mad person and was running here and there. After some time she fell down. Her hands, legs and neck got twisted. She fell down and was shaking her hands, feet and head. There was no end to our anxiety. The doctors who saw her condition did not think that she will survive. She was not even aware when she was passing urine or stools. No one could set right even one organ of her body. Some body suggested that we should take her to Sri Subbarao. Though we had no faith in him, with great difficulty we carried her to his house and put her in the varandah. He prayed and blessed her. In this way, we took her for three days to him. My daughter was completely healed. We never thought even in our dreams that she will ever live or get cured of her insanity.

(62) SPASM OF THE THROAT

Mrs. J. Venkayamma

One day, during my sleep, my throat got into a spasm. My jaws became locked. I could not open my mouth. I could not eat food or drink even water. Doctors examined me. It was not possible for me to drink, even medicine. I was quite conscious all the time. In this way 5 days passed. All efforts were in vain. I thought that there was no hope for me. I was taken in a cart to Sri Subbarao. I was lifted down from the cart and made to sit in his varandah. After sometime Sri Subbarao, who had

been out, came home saw me and was told all about my case. He uttered the name of Lord Jesus and touched my throat. I felt as if an electric current had passed through my throat, jaws and whole body. At once I became normal. When he asked me to open my mouth, I was able to do so. He made me to drink some water. I can never forget in all my life this miraculous cure that I had.

(63) CONSUMPTION (T.B.)

Mrs. R S. G. Prasunamba

About 14 years ago my health began to deteriorate. I felt as if something was moving inside my belly. In my throat and nose there were fleshy growths due to which I was having much uneasiness, cough and sleeplessness. Doctors examined me. Some said that it was tuberculosis and some said it was Asthma. Several medicines were given but there was no relief. One doctor said that my heart was ridden with holes. Gradually I developed indigestion and flatulence. I became extremely weak. For one year my food was only coffee and grapes. For 5 years I remained bed ridden, I could not walk. I could not have sleep or eat food. My suffering was so great that I thought of committing suicide. One day they said that my heart stopped beating. They said I was going to die in a few moments. I was in my lost moments. Having heard about Sri Subbarao I went to him. I sat in his varandah. Several people were singing songs of Lord Jesus. From the very moment I sat there I felt as if my body was becoming numb. I felt as if some power had touched me. Sri Subbarao uttered the name of Lord Jesus and touched me and immediately I became unconscious and fell down. When water was sprinkled on me I got up and sat. I felt as if I have died and came to life again. I came home that day and was feeling that I

was seeing Lord Jesus all the time. I gradually gained strength in my body. In the third week after that I went by walk a distance of three miles. Where as I could not sleep before, now I am sleeping very soundly. I am taking food now. I am myself not able to believe all this change that had come in me.

(64) HYSTERIA

Mr. K. Rajeswara Rao, Electric Dept., Vijayawada.

I was getting hysterical fits for 2 years. I used to fall down unconcious anywhere and everywhere and received injuries. The fits came on regularly and even 10 people could not hold me during the attack. I would remain in this state for hours together. Even after coming to consciousness my mind was not steady. I myself felt that I was developing insanity. I got myself treated at Vizag and other places but there was no benefit. We went home and the fits kept on coming as usual. I was then somehow studying in school final class. One day my headmaster, Sri Subbarao was explaining the lesson entitled "Bishop's candlesticks". He was so absorbed in the subject that he forgot about himself and was explaining the subject, So well that our hearts melted as it were. As I was looking at him I felt that some change was taking place in me. I was gradually loosing conscisousness. My friends knew about my fits and so they carried me and placed me on the ground and about 10 of them held me tightly. My headmaster enquired about me and on being told about my case ordered the boys not to hold me and leave me free. I was beating about my hands and legs violently. He came and touched me and immediately I became calm and quiet. He sprinkled water on me and I regained consciousness and sat up. When I heard about all what happened I was greatly astonished.

One day I went to attend his prayer meeting. There, when I looked at the figure of the cross I became unconscious and fell down. After 2 or 3 experiences like this my fits completely stopped and I became perfectly alright. Whenever I think of this I am greatly astonished. Five years have passed. I have studied as far as Intermediate and am now happily employed in service. If Sri Subbarao had not helped me I do not know what would have happened to me. I think of Lord Jesus and am living quite happily.

(65) INCURABLE DISEASE

Mrs. T. Annapurna

Wife of R. V. Ratnam, Agri. Farm, Narasapur W. G.

For the past 6 months I was suffering from heart pain, heart palpitation, burning sensation in the body, pains in legs and hands, weakness of muscles and joints etc. My suffering was unbearable and sometimes I felt as if I was going to die. I was treated at the women's hospital at Anakapalli and also took treatment from Alopatic and Ayurvedic doctors at Narsapur. But there was no relief. My complaints became worse. After that I went to K. G. Hospital, Vizagapatam. There they examined my blood, urine and stools and said that they could not find any defect in me and gave me some kind of treatment. My disease increased all the more. I returned back to Narsapur and took treatment from an eminent doctor there, who gave me injections every day. My disease did not decrease but continued to increase. In the end I became so weak that I could not even walk and I lost all hopes of getting well again. I thought it was a matter of a few days when I will have to die.

Then one day to my good luck I heard that Sri Subbarao of Pamarru will be able to cure sick people like

me. Though my condition was very precarious I travelled by bus for a distance of 60 miles and reached Pamarru. We reached Sri Subbarao's house somehow. The people who were gathered there were all Hindus and had "Tilaks" on their foreheads and were singing songs of praise of Lord Jesus. When we saw this it was a great surprise to us. The people who were coming there were also Hindus and Sri Subbarao's wife also had a "Tilak" on her forehead. Sri Subbarao started to bless the people. It was all a great wonder. When the sick people looked at Sri Subbarao or at the figure of the cross, they were falling down senseless. We both also stood before him for his blessing. The moment he touched me I lost consciousness and fell down. When water was sprinkled on me I regained consciousness and got up. I felt that a change had taken place in me. From that moment all my sufferings and diseases have completely vanished. I became very healthy. What so many doctors could not cure for somany days was cured in a few minutes and so easily. What the doctors may say regarding this I do not know but for my part it is a great wonder. The most interesting part of it is that Sri Subbarao is not a christian.

(66) HEART DISEASE

Mr. M. Veeranjanyulu

My daughter Kasturibai aged 11 years has been suffering for 2 years from heart pain and sleeplessness. In spite of various kinds of treatment her disease increased gradually and she became so weak that she should not even walk. Once in a week or 10 days she used to have severe vomits in the morning and became very exhausted. One day she became completely unconscious and was lying outside. She had indigestion, constipation and vertigo and
